1	30-Jan-20	11:39	Patrick	Lol
2	30-Jan-20	12:06	Daniel	Lol really?
3	8-Mar-20	12:14	Robert	I'm talking with this chinese prospective reseller, he's asking about prices and some of the games he sees interest for are games like
4	8-Mar-20	12:14	Robert	Apex
5	8-Mar-20	12:14	Robert	DayZ
6	8-Mar-20	12:14	Robert	RB6
7	8-Mar-20	12:14	Robert	ARK Steam (with battleye)
8	8-Mar-20	12:14	Robert	Do you think there's might be a value in selling cheats with EAC/BE to the chinese market as those anti-cheat guys might be less likely to catch on?
9	8-Mar-20	12:14	Robert	If that was the case then we could sell more slots to china at a lower price since there would be less risk
10	8-Mar-20	12:15	Daniel	No they have people in China as wel
11	8-Mar-20	12:15	Daniel	In fact they always pick Chinese resellers because they don't do slots there
12	8-Mar-20	12:16	Robert	hmm okay
13	8-Mar-20	12:16	Robert	this is what he was saying
14	8-Mar-20	12:16	Robert	(+GTAV) "Popular games in China: escape from tarkov, CS go, apex, ark, Dayz, battlefield 5, destiny 2, Rainbow Six
15	8-Mar-20	12:16	Robert	PUBG
16	8-Mar-20	12:16	Robert	These games have one common attribute: for the Chinese, it is a foreign game, so the Chinese government will not deal with the sale of game cheating software
17	8-Mar-20	12:16	Robert	I think that's why another agent is not active, because more people will use steam in China, and the country with the most users of steam is Chinese
18	8-Mar-20	12:16	Robert	I'd like to know your quotation for the steam version"
19	8-Mar-20	12:19	Robert	That is actually really interesting, they treat game cheating like everything else where if you don't bend over for their government you're SOL, including with game cheats
20	8-Mar-20	12:21	Daniel	Sol?
21	8-Mar-20	12:21	Robert	shit outta luck
22	8-Mar-20	12:21	Daniel	Ah
23	8-Mar-20	12:22	Robert	I use that one a fair bit
24	8-Mar-20	12:23	Daniel	Never seen you do it before
25	8-Mar-20	12:24	Robert via @gif	[animated image]
26	8-Mar-20	13:31	Robert	Updated our Apex page to the latest design

28	8-Mar-20	13:58	Daniel	[animated image]
29	9-Mar-20	6:47	Patrick	Don't know if that's really pertinent or not, but Google will start indexing Mobile versions instead of desktop.
30	9-Mar-20	11:15	Robert	Yeah that's okay, we send pretty much the same content to mobile
31	9-Mar-20	11:15	Patrick	Okay cool
32	9-Mar-20	11:44	Robert	So regarding selling single cheats to a chinese reseller, what do you guys think is the right price (also considering we may want to sell them ourselves at some point)
33	9-Mar-20	11:44	Robert	I was thinking somewhere around \$10-15 USD's worth for 1-month.
34	9-Mar-20	11:44	Robert	Games like:
35	9-Mar-20	11:44	Robert	CSGO
36	9-Mar-20	11:44	Robert	Battlefield 5
37	9-Mar-20	11:44	Robert	Destiny 2
38	9-Mar-20	11:44	Robert	GTAV
39	9-Mar-20	11:44	Robert	And are you interested in having chinese resellers sell any slot limited cheats daniel?
40	9-Mar-20	11:46	Daniel	Sounds fine to me, but the slots we should limit to ourselves currently.
41	9-Mar-20	11:46	Daniel	Or can we give them keys or something?
42	9-Mar-20	11:46	Robert	yeah that's what we'd be doing I think
43	9-Mar-20	11:46	Robert	it's the best system
44	9-Mar-20	11:47	Robert	and I presume it still works
45	9-Mar-20	11:47	Daniel	The redeem shit?
46	9-Mar-20	11:47	Robert	yeah
47	9-Mar-20	11:47	Daniel	So the reseller would buy like 10 keys and sent us the money?
48	9-Mar-20	11:47	Daniel	I don't think they like that. They love coupons
49	9-Mar-20	11:48	Robert	Usually that's because they don't want to purchase more stock than they can sell
50	9-Mar-20	11:48	Robert	and yimosecai has always purchased 50x keys on CA
51	9-Mar-20	11:49	Robert	after he got used to doing it
52	9-Mar-20	11:49	Daniel	Hmm alright, well both systems will work
53	9-Mar-20	11:49	Daniel	So I guess he can pick himself
54	9-Mar-20	11:50	Robert	I much prefer the key system with someone new because it's more secure, if it's a coupon then it can be leaked or abused
55	9-Mar-20	11:51	Daniel	True, but wouldn't we catch that rather quickly
56	9-Mar-20	11:51	Robert	Not necessarily, I don't watch that stuff with an eagle eye

No.	Date	Time	Poster	Message
57	9-Mar-20	11:51	Daniel	It probably isn't hard detecting in our woohoo.php if they used a coupon
58	9-Mar-20	11:53	Robert	BTW this chinese guy keeps coming back to wanting to sell an ARK BE cheat, I guess he has more of an audience for ARK but chinese people mainly play on Steam there
59	9-Mar-20	11:53	Robert	"The cheating software I need is the cheating software that can run on the official server. If you can make its function more perfect, even if it is expensive, I can guarantee that many people will buy it. Now we are facing the problem that the current cheating software can not run in the game we play"
60	9-Mar-20	11:54	Robert	I have him on discord and when I see him online he's always playing ark lol
61	9-Mar-20	11:58	Daniel	Lol
62	9-Mar-20	11:59	Daniel	I may use RB6 as a BE test
63	9-Mar-20	11:59	Daniel	Just the chams shit
64	9-Mar-20	11:59	Robert	okay
65	9-Mar-20	11:59	Robert	if we did have an ARK BE cheat we could probably get \$100+ a month from the right people, that crown guy was selling our cheat for \$100+ and it's not even for BE
66	9-Mar-20	12:00	Daniel	You mean per user, or actual 100 USD a month
67	9-Mar-20	12:00	Robert	per user
68	9-Mar-20	12:00	Robert	does having more features like the full framework make it easier for the anti-cheat to detect the cheat?
69	9-Mar-20	12:00	Robert	or more likely for there to be something for them to find
70	9-Mar-20	12:01	Daniel	Not really, but it depends really
71	9-Mar-20	12:01	Daniel	There is a bigger memory footprint, but that's about it
72	9-Mar-20	12:00	Daniel	or more likely for there to be something for them to find
73	9-Mar-20	12:01	Robert	okay
74	9-Mar-20	12:09	Robert	I'm wondering if we still have the page for resellers to see keys
75	9-Mar-20	12:09	Robert	<a href="https://wallhax.com/reseller/panel/">https://wallhax.com/reseller/panel/</a>
76	9-Mar-20	12:09	Robert	looks like we deleted it at some point
77	9-Mar-20	12:09	Daniel	its /forum/reseller.php
78	11-Mar-20	10:51	Robert	hey boyos

84	21-May-20	12:03	Robert	Got a ticket about D2, guy originally wanted a refund but now he's asking if there's a way to stop it from crashing
85	21-May-20	12:03	Robert	[screenshot image]
86	21-May-20	12:22	Daniel	Just refund
87	21-May-20	12:23	Daniel	I've seen this issue repeatedly, but all attempts to fix it has failed
88	21-May-20	12:23	Robert	okay
89	24-May-20	12:35	Robert	Hey guys, any ideas? Destiny 2
90	24-May-20	12:35	Robert	<a href="https://p226.p0.n0.cdn.getcloudapp.com/items/lluDKeY8/Image%2020-05-24%20at%2012.35.36%20PM.png?v=224965e36acbf42f0f6df91b5774e66c">https://p226.p0.n0.cdn.getcloudapp.com/items/lluDKeY8/Image%2020-05-24%20at%2012.35.36%20PM.png?v=224965e36acbf42f0f6df91b5774e66c</a>

97	24-May-20	12:40	Robert	have we considered maybe they died of covid
98	24-May-20	12:40	Patrick	we have not.
99	24-May-20	12:45	Daniel	The niggers
100	24-May-20	12:46	Daniel	I think those driver loads are caused by valor ant anti cheat
101	24-May-20	12:46	Daniel	Or other boot anti cheats
102	24-May-20	12:46	Robert	Are you saying if there is some other game anti-cheat installed at that level they may be blocking this cheat from loading into destiny?
103	24-May-20	12:47	Daniel	Yes the new anti cheat vanguard by Riot does this
104	24-May-20	12:47	Daniel	Blocks any black listed drivers from loading
105	24-May-20	12:48	Robert	Okay, I can ask but valorant is the only one I would know to ask him about
106	24-May-20	12:48	Robert	or maybe denuvo AC
107	24-May-20	12:48	Daniel	Yeah
108	24-May-20	14:05	Daniel	Actually it seems like a different error
109	16-Jun-20	9:55	Daniel	Can you try to test F76, it should inject and then crash shortly after
110	16-Jun-20	9:55	Daniel	Please test that

113	16-Jun-20	9:56	Daniel	I'll be back in around 1 hour
114	16-Jun-20	10:07	Robert	For FO76 it worked as you said, the cheat appeared and then the game closed
115	16-Jun-20	10:07	Robert	For WoWS the last message I got was 'Ran Entrypoint' and the client closed but no cheat UI appeared
116	16-Jun-20	10:09	Robert	Since you're out I'll do my workout now, be done in around 75 min
117	16-Jun-20	10:43	Daniel	Did WowS work without kernel mode prot?
118	16-Jun-20	11:24	Robert	yeah after 'ran endpoint' it shows up without kernel protection
119	16-Jun-20	13:30	Daniel	Test F76 again if you can please

123	16-Jun-20	13:52	Robert	yeah seems stable
124	16-Jun-20	14:03	Daniel	Right so only WoW is fucked now?
125	16-Jun-20	14:03	Daniel	I tested BFV, and that was fine
126	16-Jun-20	14:04	Robert	yeah, and then whatever the status of pubg lite, destiny 2 is
127	16-Jun-20	14:04	Daniel	I mean they still work, just doesnt use the latest tech
128	16-Jun-20	14:04	Robert	okay
129	17-Jun-20	14:04	Daniel	@extcaat Please test as many games today as possible

145	17-Jun-20	8:23	Robert	ARK
146	17-Jun-20	8:23	Robert	Any other games I'll have to download to test
147	17-Jun-20	8:47	Robert	ARK is working, for Destiny 2 loading the cheat before the game is started, the game is closing with or without kernel protection enabled.
148	17-Jun-20	8:47	Robert	Game starts with no cheat loaded though
149	17-Jun-20	8:49	Robert	I could try loading it once on the main menu but I don't know if that's safe to do
150	17-Jun-20	8:59	Robert	loading the PUBG lite cheat with kernel protection I didn't see any cheat UI in game
151	17-Jun-20	9:59	Daniel	Which one did you load?

153	17-Jun-20	9:59	Robert	with aimbot
154	17-Jun-20	10:00	Daniel	Did you restart your PC or was it on since yesterday?
155	17-Jun-20	10:02	Robert	It restarted at some point but I don't remember exactly when yesterday
156	17-Jun-20	10:02	Robert	I did some testing after that point
157	17-Jun-20	10:02	Daniel	Testing PUBGL now
158	17-Jun-20	10:04	Daniel	Hmm works for me, can I get on ur PC?
159	17-Jun-20	10:05	Robert	474 209 199
160	17-Jun-20	10:05	Robert	I'll have to enable vpn to play it though
161	17-Jun-20	10:05	Daniel	Need to reconnect
162	17-Jun-20	10:05	Robert	yeah
163	17-Jun-20	10:07	Daniel	Can you launch the gmae?
164	17-Jun-20	10:11	Daniel	Okay sec
165	17-Jun-20	10:16	Daniel	You see it now?
166	17-Jun-20	10:17	Robert	I think that froze the PC
167	17-Jun-20	10:17	Robert	I'll give it a minute but ctrl alt delete did nothing
168	17-Jun-20	10:17	Daniel	Fuck sake
169	17-Jun-20	10:18	Robert	if fullscreen is recommended I will add that to the cheat guide, because I don't have that in there right now
170	17-Jun-20	10:19	Robert	rebooting now, should I try loading the cheat on my own when the game is in fullscreen?
171	17-Jun-20	10:19	Daniel	No sec, making some changes
172	17-Jun-20	10:20	Robert	okay, PC decided to update the BIOS at reboot. I'll let you know when it's back up and running

176	17-Jun-20	10:28	Daniel	Okay start game please
177	17-Jun-20	10:31	Robert	btw just to be clear I didn't try this cheat without kernel protection
178	17-Jun-20	10:32	Daniel	you cant, it always uses the driver
179	17-Jun-20	10:32	Robert	ah okay
180	17-Jun-20	10:45	Daniel	Going to test this on my own PC now
181	17-Jun-20	10:45	Robert	ok
182	17-Jun-20	10:46	Daniel	Or not, as it froze it

189	17-Jun-20	11:13	Daniel	Then I will begin final tests
190	17-Jun-20	11:13	Robert	ok
191	19-Jun-20	5:55	Daniel	@extcaat Everything has been uploaded to Debug. So test it one last time, if it's all good we can release.
192	19-Jun-20	9:12	Robert	either that or we pick up bf1 or bfv so we have a legit copy of those if we think that would be useful
193	19-Jun-20	9:15	In reply to [two up]	Do I test the Streamer_protected you sent yesterday that I renamed, or the previous one? or does it matter
194	19-Jun-20	9:26	Daniel	You can test the current one
195	19-Jun-20	9:28	Robert	Do I need to test Destiny at all? Cause last time I did I mentioned an issue but I don't remember you saying anything about that
196	19-Jun-20	9:28	Daniel	Right, we never fixed that did we
197	19-Jun-20	9:28	Daniel	Skip it for now
198	1-Jul-20	9:46	Daniel	Is the server still restarting?
199	1-Jul-20	9:46	Robert	no, it's up
200	1-Jul-20	9:47	Daniel	Hmm, I can't access CPanel
201	1-Jul-20	9:47	Robert	it's working for me
202	1-Jul-20	9:49	Daniel	Over domain worked fine
203	1-Jul-20	9:54	Daniel	Like wtf

No.	Date	Time	Poster	Message
204	1-Jul-20	9:54	Daniel	but if I edit the name it works fine
205	1-Jul-20	9:54	Daniel	[screenshot image]
206	1-Jul-20	9:55	Robert	sure it's not your firewall?
207	1-Jul-20	9:55	Daniel	Worked fine before you restarted though
208	1-Jul-20	9:55	Robert	dunno, I don't have any problem editing the names either
209	1-Jul-20	9:56	Daniel	What about the config?
210	1-Jul-20	9:56	Robert	sorry that's what I meant
211	1-Jul-20	9:56	Robert	I can edit the config
212	1-Jul-20	9:56	Robert	are you logging in via <a href="https://ns3070692.ip-79-137-42.eu:2083/">https://ns3070692.ip-79-137-42.eu:2083/</a> ?
213	1-Jul-20	9:57	Daniel	No that times out
214	1-Jul-20	9:57	Robert	yeah that is working for me
215	1-Jul-20	10:00	Daniel	Maybe you can add my IP?
216	1-Jul-20	10:00	Daniel	87.62.103.147
217	1-Jul-20	10:00	Robert	to what though, if it was cloudflare it should show a cloudflare message
218	1-Jul-20	10:00	Daniel	CPanel
219	1-Jul-20	10:01	Daniel	Like this; <a href="https://ns3070692.ip-79-137-42.eu:2083/">https://ns3070692.ip-79-137-42.eu:2083/</a> wont be over CF
220	1-Jul-20	10:03	Robert	The only area I can think of to add that to is the brute force protection, I don't think there is any other firewall besides that to whitelist it at
221	1-Jul-20	10:04	Robert	I added it there so if it doesn't work I don't know where else to whitelist that IP
222	1-Jul-20	10:04	Daniel	Worked
223	1-Jul-20	10:05	Robert	nice
224	1-Jul-20	10:07	Daniel	But I actually did some shit on my Router as well which made it restart
225	1-Jul-20	10:07	Daniel	so I have no idea
226	1-Jul-20	10:19	Daniel	Okay Destiny 2 worked as well
227	1-Jul-20	10:27	Daniel	image_2020-07-01_16-27-12.png
228	1-Jul-20	10:27	Daniel	13.2 KB
229	1-Jul-20	10:27	Robert	omg
230	27-Jul-20	9:29	Daniel	uploaded the new driver/client
231	27-Jul-20	9:38	Robert	nice
232	27-Jul-20	9:40	Daniel	Test it in a few games if you want
233	27-Jul-20	9:41	Robert	kernel mode specifically or regardless?
234	27-Jul-20	9:41	Daniel	yeah KKP
235	27-Jul-20	9:41	Daniel	KMP

No.	Date	Time	Poster	Message
236	27-Jul-20	10:13	Robert	tested it in 3 games including destiny and it's working for me with KMP
237	27-Jul-20	10:14	Daniel	[Animation]
238	28-Jul-20	9:16	Robert	Daniel, regarding this thread, he is loading Destiny 2, wouldn't the checkbox always be checked for that game?

261	11-Aug-20	14:38	Robert	[screenshot image]
262	11-Aug-20	14:38	Robert	since we have pages that still rank and link to AS on CA for Destiny 2 and PUBG lite we should add cheats for those when we can

269	11-Aug-20	14:40	Robert	otherwise how would you handle it?
270	11-Aug-20	14:40	Robert	like damage multiplier cheat for example
271	11-Aug-20	14:40	Daniel	I was gonna add that to a tab
272	11-Aug-20	14:41	Robert	I mean yeah if you can put cheat specific features like that into the menu then we wouldn't need a console
273	12-Aug-20	16:04	Patrick	first mozilla went woke, now it looks like they are going broke
274	12-Aug-20	16:14	Patrick	<a href="https://reclaimthenet.org/bill-gates-end-to-end-encryption/">https://reclaimthenet.org/bill-gates-end-to-end-encryption/</a>

304	25-Aug-20	17:18	Patrick	looks like their are leaking all membervars on ents
305	31-Aug-20	11:56	Robert	I'm thinking of making the CA console commands page public but unlisted so people can still see it in case they aren't logged in on the forums. Are you fine with that?
306	31-Aug-20	11:57	Daniel	Sure
307	31-Aug-20	11:57	Robert	Also I can add the WH listings to the CA db shortly

323	31-Aug-20	12:08	Robert	did you want me to add the WH cheats to the entries?

385	2-Sep-20	9:23	Daniel	Speedhack can get you kicked, but it's like server issues
386	2-Sep-20	10:18	Robert	destiny 2 aimbot is killer, dominated a pvp match with it. And teamchecks make a huge difference too
387	2-Sep-20	13:28	Robert	is destiny 2 on the shadow?
388	2-Sep-20	13:28	Daniel	Don't think so, why?
389	2-Sep-20	13:29	Robert	might install it on paperspace then to record a video with the aimbot for WH and in the future CA. Easier than on my laptop
390	2-Sep-20	13:30	Daniel	Alright, I think patrick deleted it
391	2-Sep-20	13:30	Robert	yeah
392	2-Sep-20	13:30	Patrick	I did what?

468	29-Sep-20	8:29	Robert	That's 2 people that suggested the Destiny 2 game priority affected crashes
469	29-Sep-20	8:29	Patrick	wtf did I just walk into
470	29-Sep-20	8:29	Daniel	Yeah I saw that, no idea why that would affect it
471	29-Sep-20	8:30	Patrick	race condition?
472	29-Sep-20	8:30	Daniel	One guy said that the game restored itself after a few seconds
473	29-Sep-20	8:30	Patrick	maybe placebo effect?
474	29-Sep-20	8:31	Daniel	Dunno, the engine is parallel so maybe it has something to do with that
475	29-Sep-20	8:33	Daniel	Some guy just got sentenced for 197 robberies
476	29-Sep-20	8:34	Daniel	And he got 2 years lmao, what a joke
477	29-Sep-20	8:35	Robert	damn, he has some experience at it now
478	29-Sep-20	8:37	Patrick	Thats 3.7 days per robbery
479	29-Sep-20	8:38	Daniel	And he is 22
480	29-Sep-20	8:39	Patrick	That's pretty impressive
481	29-Sep-20	8:40	Patrick	That's 9 robberies for every year he has been alive
482	29-Sep-20	8:40	Daniel	Yeah
483	29-Sep-20	8:41	Patrick	Or 50 for ever year he's been an adult
484	29-Sep-20	8:41	Patrick	And that's just the ones they know about

485	29-Sep-20	8:42	Patrick	That dude should move to the chaz
486	29-Sep-20	8:43	Robert	he's playing GTA irl
487	29-Sep-20	8:45	In reply to this [github message]	BTW I noticed the guy who PM'd me and presumably you said that it's actually his github project which he updated from the original, and that most features are working
488	29-Sep-20	8:45	Daniel	@archpatriarch
489	29-Sep-20	8:47	Robert	I don't think he claims there is a working 'force imposter' feature either
490	29-Sep-20	8:52	Robert	if it's safe to compile and test on paperspace I'm also happy to check which features are working
491	29-Sep-20	9:14	Daniel	I wouldn't trust any pre compiled binaries from github
492	29-Sep-20	9:14	Daniel	I wonder why he would pay for a cheat when he updated this
493	29-Sep-20	9:15	Robert	he's been around for a while, he plays destiny 2 it looks like
494	29-Sep-20	9:21	Daniel	Id just let @archpatriarch take a look at it
495	29-Sep-20	9:22	Patrick	Fuck you, you take a look
496	29-Sep-20	9:22	Patrick	Peter file
497	29-Sep-20	18:01	Daniel	Making an update tomorrow to the Client, for crashdumps
498	29-Sep-20	18:02	Daniel	Would you like to enable full crash logging?\n\nThis will create bigger, but more insightful crashdumps. Default will create smaller, but less insightful crashdumps.
499	29-Sep-20	18:02	Daniel	If the nogs hit yes to that we get the 1 -3 gig dumps which have much more info
500	29-Sep-20	18:02	Robert	yeah I guess it's possible they had a contract they felt wasn't in their favor and they terminated it because he wouldn't renegotiate which resulted in him being removed from the platform
501	29-Sep-20	18:02	Patrick	might make sense tho
502	29-Sep-20	18:03	Patrick	the dumps
503	29-Sep-20	18:03	Patrick	with dr. d I have no idea
504	29-Sep-20	18:03	Robert in reply to Daniel	okay cool, is it in the same folder
505	29-Sep-20	18:03	Daniel	Yes
506	29-Sep-20	18:04	Daniel	They should always .ZIP them though, because those dumps are big like 3 gig compared to 30 MB
507	29-Sep-20	18:04	Robert	yeah
508	18-Oct-20	6:01	Daniel	@extcaat Can you make a dedicated thread for enabling the "Crashdumps" in the Client, how to upload the dumps, etc..

510	18-Oct-20	6:04	Daniel	@extcaat Bungie just fucked PerfectAim with a Ceasse and desist. Just a heads up, perhaps look out for that.
511	18-Oct-20	6:09	Daniel	[screenshot image]
512	18-Oct-20	6:10	Patrick	so what do we do?
513	18-Oct-20	6:10	Patrick	take it down?
514	18-Oct-20	6:10	Patrick	take the site down?
515	18-Oct-20	6:10	Patrick	game page i mean
516	18-Oct-20	6:10	Daniel	We dont even support that gamme
517	18-Oct-20	6:10	Daniel	the Lite we do
518	18-Oct-20	6:10	Patrick	well it shows the link to light

520	18-Oct-20	12:17	Robert	that's pretty cool
521	18-Oct-20	12:17	Robert	I have a question about that game for you in a sec
522	18-Oct-20	12:18	Robert	In reply to this message
523	18-Oct-20	12:19	Robert	because they are following this thread, and then they get to the point where they have the file-sharing site link with the crashdump
524	18-Oct-20	13:00	Daniel	Or pm is privately

529	18-Oct-20	14:33	Robert	I think sending pms might slow things down if people send crashdumps to the wrong person, or if there is information missing from their PM it takes longer to address
530	18-Oct-20	14:46	Daniel	Hmm right
531	21-Oct-20	10:49	Daniel	Can you check if Paypro is working?
532	21-Oct-20	10:49	Daniel	Some people are bitching on the forums saying some of the payment options doesn't work
533	21-Oct-20	10:50	Robert	someone paid 44 mins ago
534	21-Oct-20	10:50	Daniel	Alright cool
535	21-Oct-20	10:52	Robert	I think we might be getting ddosed, but cloudflare blocked my login cause of new IP

539	21-Oct-20	10:53	Daniel	Its pretty fast for me, but doing the login it was slow
540	21-Oct-20	10:54	Robert	there is definitely a ddos but it's being rate limited already, I enabled under attack for the homepage where it's hitting now so it should get better
541	21-Oct-20	11:05	Robert	regarding the payment stuff I took down the destiny 2 page because if they are looking for cheat sites to C&D, once they are done there's a good chance they won't keep looking.
542	21-Oct-20	11:05	Robert	So I think taking the page down for a week or two is worth it to increase our chance of being able to sell it over a longer period of time
543	21-Oct-20	11:05	Robert	so I think that's what people were asking about
544	21-Oct-20	11:16	Daniel	Alright sounds good
545	3-Nov-20	13:16	Robert	testing DBD now
546	3-Nov-20	13:16	Robert	Also daniel for Destiny 2 there were 3 reports (2 WH/1 CA) in the last 24 hours of people crashing within an hour even with the priority change in task manager, not sure if there's anything you'd like me to respond with
547	3-Nov-20	13:19	Robert	@helloworld1337 DBD seems to be working fine for me
548	3-Nov-20	13:19	Robert	@archpatriarch knives out is ready on shadow now
549	3-Nov-20	13:39	Daniel in reply to Robert	The windows store version?
550	3-Nov-20	13:40	Robert	no, regular version. That was what the user reported
551	3-Nov-20	13:40	Robert	I did have to download a game update but it still worked
552	8-Nov-20	12:21	Robert	apparently tuesday is the launch of the new Destiny 2 expansion

566	10-Nov-20	9:34	Robert	or do you need a disposable account
567	10-Nov-20	9:34	Daniel	Do they HWID ban?
568	10-Nov-20	9:35	Robert	well before you were getting banned every 2 hours
569	10-Nov-20	9:35	Robert	I'd rather have the current accounts able to be used for testing when they are needed
570	10-Nov-20	9:36	Daniel	Then I need disaposble
571	10-Nov-20	9:48	Robert	I think their account creation is fucked right now, I have tried multiple times on my PC as well as shadow and it seems to keep failing somehow due to the captcha not communicating that it has been solved
572	10-Nov-20	9:49	Robert	there are some accounts you could try but they might already be banned

656	16-Nov-20	10:54	Robert	so for now you removed some stuff from the cheat to see if people get crashes with it?
657	16-Nov-20	10:56	Daniel	Yeah but only in the experimental branch
658	16-Nov-20	10:56	Daniel	Just player ESP for now
659	16-Nov-20	10:57	Robert	for CA did you already update it to the version with NPC ESP?

663	16-Nov-20	16:05	Daniel	@extcaat
664	16-Nov-20	16:05	Daniel	I suppose it's not possible to somehow extend D2 subs?
665	16-Nov-20	16:09	Robert	nothing is available in amember, only way to do it would be some kind of database edit
666	16-Nov-20	16:09	Daniel	Gay shit

669	18-Nov-20	4:38	Daniel	So I got a crashdump from someone in destiny2

No.	Date	Time	Poster	Message
670	18-Nov-20	4:38	Daniel	and it points to this
671	18-Nov-20	4:39	Daniel	[screenshot image]
672	18-Nov-20	4:39	Daniel	the Get(i) is null ptr
673	18-Nov-20	4:39	Daniel	It's only called if the menu is open as well, which I doubt he had
674	18-Nov-20	4:39	Daniel	Kinda odd
675	18-Nov-20	4:40	Daniel	And in the crashdump its rax+rcx*8
676	18-Nov-20	4:40	Daniel	and both rax and rcx is 0
677	18-Nov-20	4:40	Patrick	i would wager that the this ptr is invalid
678	18-Nov-20	4:40	Daniel	the CGroupControl?
679	18-Nov-20	4:41	Patrick	ye
680	18-Nov-20	4:41	Daniel	but it still managed to do the Controls.Lock
681	18-Nov-20	4:41	Patrick	it might be invalid due to the constructor not being called or something
682	18-Nov-20	4:41	Patrick	doesnt have to be an invalid ptr
683	18-Nov-20	8:26	Daniel	@extcaat Going for lunch now, but can you perhaps try Experimental in Gambit?
684	18-Nov-20	8:56	Daniel	Got an ASUS router

693	18-Nov-20	12:13	Robert	oh damn, item ESP added in D2, nice
694	18-Nov-20	12:17	Daniel	It only works on loot boxes
695	18-Nov-20	12:17	Daniel	but I guess thats all you need really
696	18-Nov-20	12:17	Robert	if it's those blue spheres that give items then yeah
697	18-Nov-20	12:18	Robert	for experimental cheat how long should they have to wait for the menu to show up. I was going to write 2 minutes
698	18-Nov-20	12:18	Robert	that they should wait
699	18-Nov-20	12:18	Daniel	Once menu is up they can enter the game

700	18-Nov-20	12:18	Daniel	If they enter the game to fast, there is a hook that doesn't get set
701	18-Nov-20	12:18	Robert	ah gotcha
702	18-Nov-20	12:18	Daniel	So stay in the menu where you select character until cheat is visible
703	18-Nov-20	12:19	Robert	yeah I posted after you so it's very clear for people

718	18-Nov-20	17:12	Robert	patrick did you want to update the DLL of the SOT cheat on WH or should I upload the one that you posted in telegram that fixed the menu at the time?
719	18-Nov-20	17:13	Patrick	whats the question daniel?
720	18-Nov-20	17:13	Patrick	can you do it rob?
721	18-Nov-20	17:13	Robert	ok
722	18-Nov-20	17:13	Daniel	Why does it generate a new exception?

727	18-Nov-20	17:15	Patrick	saving this for reading later
728	18-Nov-20	17:15	Patrick	so daniel
729	18-Nov-20	17:15	Patrick	does the second exception only happen with your msgbox?
730	18-Nov-20	17:16	Daniel	I dont really have other method of stalling
731	18-Nov-20	17:16	Patrick	if yes did you check if exception record was even set?
732	18-Nov-20	17:16	Daniel	It must, otherwise I wouldn't get the correct exceptioncode
733	18-Nov-20	17:16	Daniel	The cheat page is PAGE_NOACCESS but that shouldn't matter
734	18-Nov-20	17:17	Patrick	do you know when the exception occurs exactly?
735	18-Nov-20	17:17	Daniel	on retn
736	18-Nov-20	17:17	Daniel	( DWORD64 ) ExceptionInfo->ExceptionRecord->ExceptionAddress - ( DWORD64 ) ( &__ImageBase )

739	18-Nov-20	17:18	Patrick	can you grab rsp?
740	18-Nov-20	17:18	Daniel	yes
741	18-Nov-20	17:18	Patrick	would you?
742	18-Nov-20	17:20	Daniel	What's RSP?
743	18-Nov-20	17:20	Patrick	stack ptr
744	18-Nov-20	17:20	Patrick	esp in 32bit
745	18-Nov-20	17:21	Daniel	Hmm I think it was XorStr

747	18-Nov-20	17:21	Daniel	I removed XorStr now it doesnt trigger
748	18-Nov-20	17:21	Daniel	However, now something else triggers
749	18-Nov-20	17:21	Daniel	STATUS_PRIVILEGED_INSTRUCTION
750	18-Nov-20	17:22	Daniel	Will have to log what module its from

752	18-Nov-20	17:22	Daniel	Can I get module via RSP?
753	18-Nov-20	17:22	Daniel	Like does it reside in a module
754	18-Nov-20	17:22	Patrick	no but from rip
755	18-Nov-20	17:23	Patrick	there is a func
756	18-Nov-20	17:23	Patrick	<a href="https://docs.microsoft.com/en-us/windows/win32/api/libloaderapi/nf-libloaderapi-getmodulehandleexa">https://docs.microsoft.com/en-us/windows/win32/api/libloaderapi/nf-libloaderapi-getmodulehandleexa</a>
757	18-Nov-20	17:23	Patrick	GET_MODULE_HANDLE_EX_FLAG_FROM_ADDRESS
758	18-Nov-20	17:24	Patrick	use this
759	18-Nov-20	17:24	Patrick	and pass rip to it as address
760	18-Nov-20	17:24	Patrick	then you know which module
761	18-Nov-20	17:24	Daniel	I have my own func
762	18-Nov-20	17:24	Patrick	but just fyi usually when you get priv inst its almost always data being executed
763	18-Nov-20	17:24	Daniel	framework::Module::GetModuleFromAddr( ExceptionInfo->ExceptionRecord->ExceptionAddress, &ModuleEntry );
764	18-Nov-20	17:24	Patrick	which happens on a fucked stack
765	18-Nov-20	17:26	Daniel	Happens in their own shit module
766	18-Nov-20	17:26	Patrick	are you sure you dont have a wrong arg count on a func you call?
767	18-Nov-20	17:27	Daniel	I'll have to figure out I guess
768	18-Nov-20	17:27	Patrick	this therapy session costs you one mandalorian watching on friday btw
769	18-Nov-20	17:28	Daniel	That in itself could be bad enough
770	18-Nov-20	17:29	Daniel	i meant the argcount
771	18-Nov-20	17:29	Daniel	this game is so fucking gay
772	18-Nov-20	17:29	Patrick	d2?
773	18-Nov-20	17:29	Daniel	ye
774	18-Nov-20	17:29	Daniel	They do this
775	18-Nov-20	17:29	Daniel	<pre> v0 = __readcr2(); LODWORD(v1) = v0 &amp; 0x3F; if ( v0 &amp; 0x3F ) { v2 = &amp;v22; v3 = &amp;xmmword_7FF6E26BC230; for ( i = 16i64; i; --i ) { </pre>
776	18-Nov-20	17:29	Daniel	That is what is causing it
777	18-Nov-20	17:30	Daniel	Why tho
778	18-Nov-20	17:30	Daniel	Thats some shady shit

No.	Date	Time	Poster	Message
779	18-Nov-20	17:30	Daniel	[screenshot image]
780	18-Nov-20	17:31	Patrick	well cr2 has the pfla
781	18-Nov-20	17:31	Daniel	pfla?
782	18-Nov-20	17:31	Patrick	page fault linear adress
783	18-Nov-20	17:31	Patrick	address
784	18-Nov-20	17:32	Patrick	its the last addr which page faulted
785	18-Nov-20	17:32	Daniel	The thread is virtualized obviously
786	18-Nov-20	17:33	Patrick	well then its probably some check
787	18-Nov-20	17:33	Daniel	So kinda creepy how XorStr is fucked
788	18-Nov-20	17:33	Daniel	I am using some new compile time xor
789	18-Nov-20	17:34	Patrick	CR2. Contains a value called Page Fault Linear Address (PFLA). When a page fault occurs, the address the program attempted to access is stored in the CR2 register.
790	18-Nov-20	17:35	Patrick	for cr2 to be set, they would have to trigger the page themselves
791	18-Nov-20	17:35	Patrick	which brings us back to C000005
792	18-Nov-20	17:35	Patrick	which is also the code for a page fault
793	18-Nov-20	17:40	Daniel	K, now I just need to wait for the game to crash
794	18-Nov-20	17:41	Patrick	I think I know what your issue is
795	18-Nov-20	17:41	Patrick	they are limiting the stacksize on purpose
796	18-Nov-20	17:41	Patrick	and you might exceed the stack
797	18-Nov-20	17:41	Patrick	but then their stack extension code doesnt work because you are not a module
798	18-Nov-20	17:44	Daniel	But wouldn't that cause crashes almost asap?
799	18-Nov-20	17:44	Patrick	not neces.
800	18-Nov-20	17:44	Patrick	it could be one shit branch that does it
801	18-Nov-20	17:45	Daniel	Can't be the render thread then
802	18-Nov-20	17:45	Daniel	Otherwsie all those shit overlays would crash
803	18-Nov-20	17:45	Daniel	Can't be the render thread then
804	18-Nov-20	17:45	Daniel	Otherwsie all those shit overlays would crash
805	18-Nov-20	17:45	Daniel	but I guess they are a module tho
806	18-Nov-20	17:46	Daniel	They use <a href="https://docs.microsoft.com/en-us/windows/win32/api/winbase/nf-winbase-createfiberex">https://docs.microsoft.com/en-us/windows/win32/api/winbase/nf-winbase-createfiberex</a>
807	18-Nov-20	17:49	Daniel	I doubt I use much stack tho
808	18-Nov-20	17:50	Patrick	i could be wrong
809	18-Nov-20	17:50	Patrick	but i think it is realted to the stack

No.	Date	Time	Poster	Message
810	18-Nov-20	17:50	Patrick	no way a ret could crash otherwise
811	18-Nov-20	17:50	Daniel	Oh I fixed that like I said
812	18-Nov-20	17:51	Patrick	yeah but the fact that it did
813	18-Nov-20	17:51	Patrick	means the stack was misalignedf
814	18-Nov-20	17:51	Daniel	Its some Xor I copy pasted from internet
815	18-Nov-20	17:51	Patrick	i am spent

818	18-Nov-20	17:51	Patrick	what did you expect?
819	18-Nov-20	17:52	Daniel	I wonder what crashes it tho
820	18-Nov-20	17:52	Daniel	Although using Std::array is kinda gay as well
821	18-Nov-20	17:52	Patrick	vs 2019 is still WIP
822	18-Nov-20	17:52	Patrick	i wouldnt be too surprised if its a compiler bug
823	18-Nov-20	17:53	Patrick	they just fixed a major one last week
824	18-Nov-20	17:53	Patrick	anyways I am off to bed
825	18-Nov-20	17:53	Patrick	take care aidsniel
826	18-Nov-20	17:53	Daniel	Should probably update then
827	18-Nov-20	17:53	Daniel	how do you even do that
828	18-Nov-20	17:54	Patrick	you run their gay installer
829	18-Nov-20	17:54	Patrick	its also an updater

844	18-Nov-20	18:46	Daniel	maybe its the shit router, even though Telegram works just fine
845	18-Nov-20	18:46	Robert	yeah now I got it
846	18-Nov-20	18:46	Daniel	Can you make a new cheat update post for the Experimental and say it has been re-enabled and that we have added some crash protection.
847	18-Nov-20	18:46	Daniel	Still load at character select screen
848	18-Nov-20	18:47	Daniel	Ah, okay
849	18-Nov-20	18:48	Robert	nothing shows up in WHM or cloudflare that looks suspicious, only thing I can think would be to restart the server
850	18-Nov-20	18:48	Daniel	Sure lets try
851	18-Nov-20	18:48	Robert	for the experimental version do you want crashdumps if they crash
852	18-Nov-20	18:48	Daniel	A messagebox pops up
853	18-Nov-20	18:48	Daniel	"CRASH DETECTED!" with some info and shit
854	18-Nov-20	18:48	Daniel	I also tells them to copy paste the message and report to us
855	18-Nov-20	18:48	Robert	ok
856	18-Nov-20	18:49	Daniel	Now its fast for me again
857	18-Nov-20	18:50	Robert	going to reboot it now

868	18-Nov-20	18:57	Robert	18-20 hours of battery life being a reality
869	18-Nov-20	18:58	Daniel	Of usage?

889	18-Nov-20	20:31	Robert	it's possible that it was related to re-entering the game world, at one point it kicked me back to the director due to not moving around I guess. So that might be why it's a black screen if it was still loading stuff
890	18-Nov-20	21:02	Robert	tried reloading the game and cheat and waiting until the main menu popped to proceed past the start screen, but it seems to freeze before getting to character select. Not sure why

903	19-Nov-20	5:19	Daniel	well I just got a crash in kernel32.dll
904	19-Nov-20	5:19	Daniel	so I wonder what that is
905	19-Nov-20	5:42	Daniel	Hmm can you help with this a sec
906	19-Nov-20	5:42	Patrick	Sup
907	19-Nov-20	5:42	Daniel	[screenshot image]
908	19-Nov-20	5:42	Daniel	[screenshot image]
909	19-Nov-20	5:42	Daniel	[screenshot image]
910	19-Nov-20	5:43	Daniel	its ACCESS_VIOLATION
911	19-Nov-20	5:43	Daniel	Any idea why?
912	19-Nov-20	5:44	Patrick	well it uses two vmts within the class
913	19-Nov-20	5:44	Patrick	if 18 isnt valid
914	19-Nov-20	5:44	Patrick	it uses the base vmt
915	19-Nov-20	5:45	Patrick	this is weird
916	19-Nov-20	5:46	Patrick	so you provide the thisptr, right?
917	19-Nov-20	5:46	Patrick	if you do
918	19-Nov-20	5:46	Patrick	you need to also provide a valid vmt
919	19-Nov-20	5:46	Daniel	0x18 must be
920	19-Nov-20	5:46	Daniel	<pre> class Hashes // Size = 0x20 { public: QWORD A; //0x0000 QWORD B; //0x0008 OWORD C; //0x0010 struct OWORD}; { QWORD A; QWORD B; }; </pre>
921	19-Nov-20	5:46	Daniel	C.B
922	19-Nov-20	5:47	Patrick	yeah but also A needs to be a valid vmt
923	19-Nov-20	5:48	Daniel	Hashes.A?
924	19-Nov-20	5:48	Daniel	Hashses.B you mean?
925	19-Nov-20	5:48	Patrick	or rather b needs to be a function ptr
926	19-Nov-20	5:48	Patrick	yeah

No.	Date	Time	Poster	Message
927	19-Nov-20	5:49	Daniel	Will try this
928	19-Nov-20	5:49	Patrick	they also add 0x30 to the class
929	19-Nov-20	5:49	Patrick	yours isnt even that big
930	19-Nov-20	5:49	Daniel	[screenshot image]
931	19-Nov-20	5:50	Patrick	if +18h is set
932	19-Nov-20	5:50	Patrick	they add 30 to the class
933	19-Nov-20	5:50	Patrick	and then assume there to be a table
934	19-Nov-20	5:50	Patrick	you dont have that
935	19-Nov-20	5:50	Daniel	Isn't +0x30 the VMT index?
936	19-Nov-20	5:50	Daniel	vmtfunc
937	19-Nov-20	5:50	Daniel	Patrick
938	19-Nov-20	5:51	Daniel	it is
939	19-Nov-20	5:51	Daniel	but they also add r8
940	19-Nov-20	5:51	Daniel	r9
941	19-Nov-20	5:51	Patrick	LB
942	19-Nov-20	5:51	Patrick	Lord Bendtner 19.11.2020 05:42:50
943	19-Nov-20	5:51	Patrick	[screenshot image]
944	19-Nov-20	5:51	Daniel	went me to pad it just incase?
945	19-Nov-20	5:52	Patrick	i mean
946	19-Nov-20	5:52	Patrick	if it were the vmt
947	19-Nov-20	5:52	Patrick	then it would check if vmtentry 18 is set
948	19-Nov-20	5:52	Patrick	because first they mov rax,[rcx]
949	19-Nov-20	5:52	Patrick	and then they compare
950	19-Nov-20	5:53	Daniel	What is the v8?
951	19-Nov-20	5:54	Patrick	rcx+8
952	19-Nov-20	5:55	Patrick	oh wait
953	19-Nov-20	5:55	Patrick	dafuq
954	19-Nov-20	5:55	Patrick	they do move eax 8
955	19-Nov-20	5:55	Patrick	mov rax,[rax]
956	19-Nov-20	5:55	Patrick	jmp rax
957	19-Nov-20	5:55	Patrick	what the fuck?
958	19-Nov-20	6:00	Patrick	I think you need to provide this ptr
959	19-Nov-20	6:00	Daniel	Oh, so IsBadReadPtr is actually going into my exception handler
960	19-Nov-20	6:00	Daniel	Rather strange

No.	Date	Time	Poster	Message
961	19-Nov-20	6:01	Patrick	isbadreadptr reads the memblock in an expection handler
962	19-Nov-20	6:01	Patrick	and if you generate an exception
963	19-Nov-20	6:01	Patrick	it returns true
964	19-Nov-20	6:01	Patrick	else false
965	19-Nov-20	6:02	Daniel	But shouldn't it execute their handler first
966	19-Nov-20	6:02	Daniel	And then mine?
967	19-Nov-20	6:02	Patrick	not if you reg yours first
968	19-Nov-20	6:02	Patrick	i mean alst
969	19-Nov-20	6:02	Patrick	but with the first arg 1
970	19-Nov-20	6:05	Daniel	<pre> if( ModuleEntry != NULL &amp;&amp; Framework::Text::WideString::CaseInsensitiveCompare( ModuleEntry- &gt;BaseDllName.Buffer, L"kernel32.dll" ) == 0 ) { return EXCEPTION_EXECUTE_HANDLER; } </pre>
971	19-Nov-20	6:05	Daniel	Would that work?
972	19-Nov-20	6:10	Daniel	I dont think sdkHashes.B is a VMT
973	19-Nov-20	6:12	Patrick	it would be good if you could capture a this ptr
974	19-Nov-20	6:12	Patrick	and if you could look at what comes after this+0x30
975	19-Nov-20	6:22	Daniel	Okay so sdkHashes.B is a Ptr
976	19-Nov-20	6:22	Daniel	that points to a new QWORD that is obfuscated like always
977	19-Nov-20	7:20	Daniel	[screenshot image]
978	19-Nov-20	9:56	Patrick	Are you talking to people?
979	19-Nov-20	9:57	Daniel	No
980	19-Nov-20	9:57	Daniel	I just got something fucked up
981	19-Nov-20	9:57	Daniel	I can't load PDB with IDA anymore
982	19-Nov-20	10:08	Patrick	Weird
983	19-Nov-20	10:14	Robert	hey, need me to do anything?
984	19-Nov-20	10:14	Daniel	No
985	19-Nov-20	10:15	Robert	[Animation]
986	20-Nov-20	12:05	Daniel	Robert any new threads about crashes?
987	20-Nov-20	12:05	Daniel	I played 3 hours without crash on new update I released
988	20-Nov-20	12:05	Robert	for D2 no, just one guy asking about the aimbot bone aiming location
989	20-Nov-20	12:06	Daniel	Yeah that's bugged
990	20-Nov-20	12:06	Daniel	Removed

No.	Date	Time	Poster	Message
991	20-Nov-20	12:06	Daniel	But if the new update doesn't crash I can fix the bones
992	20-Nov-20	12:06	Robert	that's cool
993	20-Nov-20	12:06	Daniel	You can start the shadow
994	20-Nov-20	12:06	Daniel	I unlocked gambit
995	20-Nov-20	12:07	Daniel	I also did a rare quest
996	20-Nov-20	12:07	Robert	how much of a pain was it to unlock the PVP
997	20-Nov-20	12:07	Daniel	That gave me a legendary weapon
998	20-Nov-20	12:09	Robert	our shadow isn't Warframe HWID banned is it? I have the game updating on my local PC currently
999	20-Nov-20	12:33	Daniel	Warframe?
1000	20-Nov-20	12:33	Daniel	Or destiny
1001	20-Nov-20	12:36	Robert	Warframe
1002	20-Nov-20	13:29	Daniel	@extcaat You can disable the (Experimental) for now
1003	20-Nov-20	13:30	Robert	done
1004	20-Nov-20	13:30	Robert	do you think you found the issue?
1005	20-Nov-20	13:30	Robert	for crashing
1006	20-Nov-20	13:31	Daniel	Dunno, but its same cheat anyways
1007	20-Nov-20	13:31	Daniel	I updated both
1008	20-Nov-20	13:31	Robert	ah
1009	20-Nov-20	13:31	Robert	wanna wait on CA until we're sure?
1010	20-Nov-20	13:32	Daniel	No I can do CA now
1011	20-Nov-20	13:32	Daniel	sec
1012	20-Nov-20	13:51	Robert	thanks
1013	20-Nov-20	13:56	Robert	you on shadow?
1014	20-Nov-20	13:56	Daniel	Not anymore
1015	20-Nov-20	13:56	Robert	not anymore as in you got disconnected?
1016	20-Nov-20	13:57	Robert	I logged into it but didn't connect, but it seemed to already be on
1017	20-Nov-20	13:58	Daniel	I dc
1018	20-Nov-20	13:58	Daniel	Because when I plugged in my mic my pc lagged
1019	20-Nov-20	13:58	Robert	oh okay
1020	20-Nov-20	13:58	Robert	I was going to test CA D2, do I need to do that
1021	20-Nov-20	14:00	Daniel	You can I suppose
1022	20-Nov-20	14:01	Robert	if you're fairly confident you had the right menu I'm not too worried
1023	20-Nov-20	16:22	Patrick	[screenshot image]

1024	20-Nov-20	16:22	Patrick	what do I tell them?
1025	20-Nov-20	17:07	Robert	probably talking about the head bone thing
1026	21-Nov-20	8:48	Patrick	we have chinese people who cant use the launcher now
1027	21-Nov-20	8:48	Patrick	what do I tell them?
1028	21-Nov-20	8:48	Daniel	Try VPN or the proxy settings
1029	21-Nov-20	9:01	Daniel	<a href="https://wallhax.com/forum/general-discussion/24107-paysafecard-bug.html">https://wallhax.com/forum/general-discussion/24107-paysafecard-bug.html</a>
1030	21-Nov-20	9:01	Daniel	@extcaat
1031	21-Nov-20	10:48	Robert	hey
1032	21-Nov-20	10:50	Robert	looks like he solved it
1033	21-Nov-20	10:57	Robert	I see some people saying the D2 aimbot doesn't work, is it actually disabled?
1034	21-Nov-20	11:06	Daniel	No
1035	21-Nov-20	11:06	Daniel	I just did an Update today
1036	21-Nov-20	11:35	Robert	okay, so people who were saying it was disabled were talking about the last experimental version, which is replaced now?
1037	21-Nov-20	11:40	Daniel	Yeah there is only one
1038	21-Nov-20	12:43	Daniel	I wonder if those bans in Destiny 2 were of people using the experimental version
1039	21-Nov-20	12:43	Robert	could it be crash dump related?
1040	21-Nov-20	12:43	Daniel	It could be yes
1041	21-Nov-20	12:44	Daniel	I may actually delete the miniDbgTicket.exe
1042	21-Nov-20	12:44	Daniel	The Shadow account isn't banned, and I deleted the miniDbgTicket from the start
1043	21-Nov-20	12:44	Robert	it could be that the devs just got around to reviewing some crashes, like that one guy who said he didn't use the cheat for a week or something (though that may not be true)
1044	21-Nov-20	12:51	Daniel	They take a screenshot on crashes as well
1045	21-Nov-20	12:52	Daniel	Uploaded new version that deletes the crashdumper
1046	21-Nov-20	12:54	Daniel	Btw I added Game.HealthSuffix and Game.DistanceSuffix
1047	21-Nov-20	12:54	Daniel	Defaults to " HP" and " M"
1048	21-Nov-20	12:54	Daniel	And then I removed the "Show Suffix", so if people want no suffix they just set it to ""
1049	21-Nov-20	13:02	Robert	so are game.healthsuffix, distance specific to 3D radar?
1050	21-Nov-20	13:02	Robert	Is there still 2DRadar.ShowSuffix ?
1051	21-Nov-20	13:02	Daniel	No

No.	Date	Time	Poster	Message
1052	21-Nov-20	13:02	Daniel	It's global now
1053	21-Nov-20	13:02	Robert	ok
1054	21-Nov-20	13:10	Robert	that's cool that I can now measure distance in units of 'Patrick's Moms' though
1055	21-Nov-20	15:09	Robert	I'll check but there isn't much I can do
1056	21-Nov-20	15:39	Daniel	About what?
1057	21-Nov-20	15:40	Robert	the older aimbot in D2 for CA
1058	21-Nov-20	15:40	Robert	people asking about the aiming location
1059	21-Nov-20	15:44	Daniel	I'll send you new update after my workout
1060	21-Nov-20	15:44	Robert	alrighty
1061	21-Nov-20	16:55	Daniel	@extcaat Get ready
1062	21-Nov-20	16:56	Daniel	Sent it
1063	21-Nov-20	16:57	Robert	thanks
1064	21-Nov-20	17:02	Daniel	Sorry how does Polls work in vb?
1065	21-Nov-20	17:02	Robert	I don't remember, I don't think I've ever made one
1066	21-Nov-20	17:02	Daniel	But it gives me no options to even add options
1067	21-Nov-20	17:02	Daniel	image_2020-11-21_23-02-34.png
1068	21-Nov-20	17:02	Daniel	52.9 KB
1069	21-Nov-20	17:14	Daniel	Okay figured it out
1070	21-Nov-20	17:16	Daniel	No fucking way
1071	21-Nov-20	17:16	Daniel	Did you disable Poll rights in the Destiny 2 forum?
1072	21-Nov-20	17:16	Robert	It's whatever the default settings were set to, I don't go in and manually change the permissions on each subforum lol
1073	21-Nov-20	17:17	Daniel	Okay apprently you can't close the thread
1074	22-Nov-20	7:55	Daniel	<a href="http://wallhax.com/client/ui/cheats_test.php?s=6b5206f0248ca955e49ed3f52e6d0d9d">http://wallhax.com/client/ui/cheats_test.php?s=6b5206f0248ca955e49ed3f52e6d0d9d</a>
1075	22-Nov-20	7:56	Daniel	Thoughts about that?
1076	22-Nov-20	7:56	Daniel	Pick Destiny 2 for example
1077	22-Nov-20	7:57	Patrick	uhh
1078	22-Nov-20	7:57	Patrick	bans reported is nice
1079	22-Nov-20	12:19	Robert	see it's easy
1080	22-Nov-20	12:20	Robert	interesting, there were only those 2 ban reports on CA, none others have come in since

1084	23-Nov-20	10:50	Robert	hmm do we have any ideas for why he wouldn't get a crashdump
1085	23-Nov-20	11:01	Daniel	Because the game doesn't really crash
1086	23-Nov-20	11:01	Daniel	The engine is parallel so when a thread becomes stuck they can't recover
1087	23-Nov-20	11:01	Daniel	And shuts down the game
1088	23-Nov-20	11:02	Robert	do you mean it freezes, or it closes but doesn't crash
1089	23-Nov-20	11:02	Daniel	Yes
1090	23-Nov-20	11:02	Daniel	Still trying to fix that or make it better
1091	23-Nov-20	11:02	Daniel	The real crashes should be fixed
1092	23-Nov-20	11:02	Robert	gotcha
1093	23-Nov-20	11:08	Robert	someone on CA said the aimbot is locking on to the flag objective in PVP lol
1094	24-Nov-20	9:20	Patrick	Ok
1095	24-Nov-20	10:50	Patrick	can I use shadow?
1096	24-Nov-20	10:52	Daniel	Fine
1097	24-Nov-20	10:59	Daniel	Make sure you shutdown destiny completely before u use reclass
1098	24-Nov-20	10:59	Patrick	oh shit
1099	24-Nov-20	10:59	Patrick	i just closed it
1100	24-Nov-20	11:00	Patrick	but i didnt use reclass
1101	24-Nov-20	11:00	Patrick	reclass
1102	24-Nov-20	11:00	Daniel	No I mean shutdown before you use reclass*
1103	24-Nov-20	11:00	Patrick	not going to use reclass
1104	24-Nov-20	11:00	Daniel	Good
1105	24-Nov-20	11:01	Daniel	Actually spend 20 hours doing all the missions for this shit
1106	24-Nov-20	11:05	Patrick	for destiny2?
1107	24-Nov-20	11:09	Patrick	@helloworld1337 need new fw for 32 bit
1108	24-Nov-20	11:09	Patrick	last you sent is only 64
1109	24-Nov-20	11:27	Daniel in reply to Patrick	Yes
1110	24-Nov-20	11:28	Patrick	does that make you a progamer? since its part of your job
1111	24-Nov-20	11:28	Daniel	It does

1121	24-Nov-20	16:06	Patrick	Daniel would have to fix the saving
1122	24-Nov-20	16:13	Robert	oh daniel, we need the latest D2 cheat for CA
1123	24-Nov-20	16:28	Daniel in reply to Robert	What's the issue?
1124	24-Nov-20	16:29	Robert	cheat doesn't work after game updated
1125	24-Nov-20	16:29	Daniel	But the saving?
1126	24-Nov-20	16:31	Patrick	You probably just have to save to tempfolder on uwp
1127	24-Nov-20	16:32	Daniel	how do I detect UWP?
1128	24-Nov-20	16:34	Patrick	<a href="https://stackoverflow.com/questions/39609643/determine-if-c-application-is-running-as-a-uwp-app-in-desktop-bridge-project">https://stackoverflow.com/questions/39609643/determine-if-c-application-is-running-as-a-uwp-app-in-desktop-bridge-project</a>
1129	24-Nov-20	16:35	Daniel	fucks that nigger shit
1130	24-Nov-20	16:37	Patrick	You can even do it by checking the temp paths
1131	24-Nov-20	16:37	Patrick	Uwp apps return some shit folder in their app space
1132	24-Nov-20	16:45	Daniel	will that work?
1133	24-Nov-20	16:45	Daniel	FOLDERID_LocalAppData
1134	24-Nov-20	17:00	Patrick	Doubt it
1135	24-Nov-20	17:00	Patrick	In ark only temp was writable
1136	24-Nov-20	17:00	Robert	thanks daniel, uploaded d2 update
1137	4-Dec-20	10:55	Robert	[Animation]
1138	4-Dec-20	11:03	Robert	looks like Destiny 2 updated so people are asking if it's safe. Should I tell them that it is?

1208	17-Dec-20	17:14	Daniel	but I can only test it via shadow
1209	17-Dec-20	17:14	Patrick	shadow is all yours
1210	30-Dec-20	15:03	Robert	clearly the world and art shows the budget but yeah they probably had to redo or scrap lots of systems considering how much less seems done on that side
1211	30-Dec-20	15:08	Robert	certainly doesn't help that it was their first fps and completely different setting from the witcher, most studios have trouble making a shift like that, the successful ones are somewhat rare like guerilla with horizon: zero dawn or the studio that made days gone, but even those tend to feel like they'll really benefit from sequels
1212	30-Dec-20	15:09	Robert	and you can even see it with destiny which was bungie's first looter shooter. The moment to moment gameplay and shooting is extremely tight which should be no surprise but they have had to learn a ton of hard lessons on how to make an online pseudo-mmo

1220	16-Jan-21	17:57	Patrick	Maybe we should check our page's email for DmCa notices
1221	16-Jan-21	17:58	Robert	what
1222	16-Jan-21	17:58	Patrick	Like didn't we have an email address that would get them
1223	16-Jan-21	17:59	Patrick	That was public
1224	16-Jan-21	17:59	Patrick	That we hardly ever checked
1225	16-Jan-21	18:00	Robert	depends, there is the domain whois email, and then the WH cloudflare email that is daniel's. But as for as Destiny which is the only game on my radar and only advertised on CA I have checked a few times to make sure they didn't send us any C&D

1354	6-Mar-21	12:57	Robert	We never got a CA version after the 24th, do we need that? Yimosecai PM'd me about it, there might still be some people crashing occasionally though not sure yet.

1395	24-Mar-21	0:05	Robert	daniel updated destiny a few hours ago
1396	28-Mar-21	14:29	Robert	He brought me in on this project because he needed an expert and together we were able to find all kinds of stuff that he'll tell you about when he gets back
1397	28-Mar-21	14:29	Robert	someone was asking about destiny 2 controller support, we don't have that do we?
1398	28-Mar-21	16:34	Daniel	One like
1399	28-Mar-21	16:34	Daniel	One more rep
1400	28-Mar-21	16:34	In reply to this message	Didn't I already answer that?

1458	25-May-21	11:36	Daniel	I fixed it for WH
1459	25-May-21	11:36	Daniel	and I think I sent you the update for CA
1460	25-May-21	11:36	Robert	I uploaded the last one you sent me for the 18th
1461	25-May-21	11:37	Robert	is it possible he just needs to adjust projectile distance
1462	25-May-21	11:37	Robert	maybe it's working
1463	25-May-21	11:38	Robert	I think you sent me the 18th but not the 19th where your update log mentions fixing the item ESP
1464	25-May-21	11:44	Daniel	I'll fix later today
1465	25-May-21	11:44	Daniel	They have an update out anyways soon
1466	25-May-21	11:45	Patrick	this game updates a lot
1467	25-May-21	11:45	Patrick	i feel like its almost bi-weekly
1468	30-May-21	10:23	Robert	hey daniel, seems like more people are having these menu cursor issues recently, there is one here

1474	30-May-21	10:56	Daniel	I'll try to fix
1475	2-Jun-21	9:46	Robert	would it be safe to say that any cheats that aren't KMP protected can at least offer controller support if they don't have it already? Is it KMP games that don't
1476	2-Jun-21	9:47	Robert	and also is controller support something that is automatic with the framework or does it have to be included manually?
1477	2-Jun-21	9:47	Daniel	KMP doesnt matter in this case
1478	2-Jun-21	9:48	Robert	I was just thinking of like destiny 2 + plus cheats, and I remember we didn't have controller support in at least some of those
1479	2-Jun-21	9:48	Daniel	In Destiny 2 its useless because of the way we do the aimbot (we set the mouse position)
1480	2-Jun-21	9:48	Daniel	In Destiny 2 its useless because of the way we do the aimbot (we set the mouse position)
1481	2-Jun-21	9:48	Robert	ah I see
1482	2-Jun-21	9:48	Daniel	Which isn't valid when you are a controller
1483	2-Jun-21	9:48	Robert	okay I understand now
1484	3-Jun-21	14:26	Daniel	Did D2 update?
1485	3-Jun-21	14:26	Robert	there was that hotfix today
1486	3-Jun-21	14:27	Robert	someone asked when the hacks will work again so I guess it must have broken the cheat
1487	3-Jun-21	14:27	Daniel	K
1488	4-Jun-21	14:25	Robert	By the way that previous reseller I talked to didn't end up working out, but I had someone else who actually uses our d2 cheat get in contact and ask about reselling our Destiny 2 cheat. They are a co-owner at kingschoice.io . I set up everything for them and they ordered their first keys last night so it should be some good business for us.
1489	4-Jun-21	14:25	Robert	So they are selling on their own site and only for D2 but if it works well I will try to build that relationship further.
1490	4-Jun-21	14:27	Daniel	Alright sounds good
1491	7-Jun-21	11:58	Daniel	Well this was unrelated to the method Hood uses
1492	7-Jun-21	11:58	Daniel	this was a fix for any non forced driver cheats
1493	7-Jun-21	11:58	Robert	ah okay
1494	7-Jun-21	11:58	Daniel	like csgo, warframe etc
1495	7-Jun-21	12:05	Daniel	You can try distany 2 tho
1496	7-Jun-21	12:14	Robert	ARK (Steam) - works

1501	19-Jun-21	19:18	Patrick	maybe we should stop selling d2?
1502	19-Jun-21	19:18	Patrick	or at least stop advertising it on the page?
1503	19-Jun-21	19:24	Robert	we don't really advertise it, the only thing we really have is testimonials that people post
1504	19-Jun-21	19:45	Robert	we should be good as long as other sites are ranking for that shith
1505	19-Jun-21	19:46	Robert	and if they try and find out who all the cheat sites are and contact them, then if we get contacted we can take shit down because they are only gonna sue one person at a time
1506	19-Jun-21	19:47	Patrick	would you know if we did get contacted?
1507	19-Jun-21	19:47	Daniel	Google nightmare
1508	19-Jun-21	19:47	Daniel	Good
1509	19-Jun-21	19:47	Daniel	Night
1510	19-Jun-21	19:47	Daniel	Wtf
1511	19-Jun-21	19:48	Patrick	like would you catch in the email in a decent amount of time? @extcaat
1512	19-Jun-21	19:49	Patrick	for once I listen to daniel: <a href="https://techcrunch.com/2020/11/17/google-has-created-an-ai-powered-nightmare-creature-generator/">https://techcrunch.com/2020/11/17/google-has-created-an-ai-powered-nightmare-creature-generator/</a>
1513	19-Jun-21	19:49	Daniel	We need Robert to move to a non shit country
1514	19-Jun-21	19:49	Daniel	So we can sell cheats better
1515	19-Jun-21	19:50	Daniel	Never seen AA take shit down
1516	19-Jun-21	19:50	Patrick	they renamed call of duty to cod
1517	19-Jun-21	19:50	Patrick	like cod fish
1518	19-Jun-21	19:50	Daniel	Still sells it tho
1519	19-Jun-21	19:50	Patrick	but that was due to paypal
1520	19-Jun-21	19:51	Daniel	I wanna know what is copyright infringements tho
1521	19-Jun-21	19:52	Daniel	Because if you make a cheat for something how is that copyright infringement
1522	19-Jun-21	19:52	Daniel	Unless you use name or pics
1523	19-Jun-21	19:53	Daniel	Because what is strange is
1524	19-Jun-21	19:53	Daniel	AJ hasn't sold destiny 2 for months
1525	19-Jun-21	19:54	Patrick	well I dont know enough to accurately answer this
1526	19-Jun-21	19:54	Patrick	i think in blizzard vs wowglider blizzard argued that reading their memory was a copyright infringement

1527	19-Jun-21	19:54	Patrick	and they won
1528	19-Jun-21	19:55	Daniel	But wowglider was US as well
1529	19-Jun-21	19:55	Daniel	Shithole country
1530	19-Jun-21	19:55	Robert in reply to Patrick	I check it pretty much every day, the only thing I worry about is the domain email for wh because it's daniels
1531	19-Jun-21	19:56	Patrick	cant we setup autoforward/
1532	19-Jun-21	19:56	Daniel	I never check that shit, what email is that?
1533	19-Jun-21	19:56	Robert in reply to Daniel	Bungie probably threatened them months ago and AJ took down the page but kept offering the cheat. That's my guess
1534	19-Jun-21	19:57	In reply to this message	I don't know, it's hidden in whois but they will email the anonymized address that shows up there and it goes to your email, whatever it's set to
1535	19-Jun-21	19:57	Daniel	The gokkesokken one?
1536	19-Jun-21	19:57	Robert	maybe? I can't see it
1537	19-Jun-21	19:57	Daniel	I can check tomorrow
1538	19-Jun-21	19:59	Daniel	Night
1539	19-Jun-21	19:59	Robert	night
1540	19-Jun-21	20:09	Patrick	night
1541	6-Jul-21	11:31	Daniel	@extcaat d2 will update today, should I add the stream proof stuff? Not sure if it's unsafe or not as it does do some hooks and patches to some DLLs
1542	6-Jul-21	11:31	Robert	up to you, but destiny is maybe a game where we should be more careful
1543	6-Jul-21	11:33	Daniel	Yeah, I can test it first
1544	8-Jul-21	8:41	Robert	I am testing hood and SoT
1545	8-Jul-21	8:47	Robert	BTW did you see this about hitscan?
1546	8-Jul-21	8:47	Robert	<a href="https://wallhax.com/forum/destiny-2-a/33069-pls-fix-hitscan.html">https://wallhax.com/forum/destiny-2-a/33069-pls-fix-hitscan.html</a>
1547	8-Jul-21	8:47	Robert	supposedly in D2 it's always aiming at head
1548	8-Jul-21	9:12	Daniel	Fixing F76 first
1549	8-Jul-21	9:26	Daniel	regarding hitscan
1550	8-Jul-21	9:26	Daniel	If the head is visible it will always aim there
1551	8-Jul-21	9:26	Robert	did that change? Because it used to prioritize chest right?
1552	8-Jul-21	9:26	Daniel	Let me check
1553	8-Jul-21	9:27	Robert	that used to be what I suggest when people wanted to aim at chest

No.	Date	Time	Poster	Message
1554	8-Jul-21	9:27	Daniel	Head, Neck, Body, Center Mass, Feet
1555	8-Jul-21	9:30	Robert	just seems odd that we have auto and hitscan and hitscan is like auto but better
1556	8-Jul-21	9:30	Robert	but both focus head
1557	8-Jul-21	9:30	Daniel	Hit Scan checks whatever bone is visible
1558	8-Jul-21	9:31	Robert	But isn't auto just head?
1559	8-Jul-21	9:31	Daniel	yeah
1560	8-Jul-21	9:31	Robert	wouldn't that make hitscan definitively better?
1561	8-Jul-21	9:31	Robert	like I always want to be able to shoot my target if they're visible
1562	8-Jul-21	9:31	Daniel	yeah, more performance heavy tho
1563	8-Jul-21	9:32	Robert	Oh well, considering some of the games we support I would suggest we have an option that still aims at all bones but prioritizes chest/center/neck first before head, for games like D2, Apex, Warframe or Battlefield where people may want to try to stay under the radar a bit more
1564	8-Jul-21	9:33	Robert	like center of mass is good but some people are going to want to be able to go for the head if someone's head is the only thing poking up above cover
1565	8-Jul-21	9:34	Daniel	Maybe I can rewrite it later on
1566	12-Jul-21	9:23	Robert	oh I thought the aimbot only aimed at shit with ESP
1567	12-Jul-21	9:24	Robert	if you can tell me what the maxrange command is I can add it to the console commands
1568	12-Jul-21	9:24	Daniel	I think you did
1569	12-Jul-21	9:24	Daniel	Aimbot.MaxRange
1570	12-Jul-21	9:24	Robert	nah It's not in there
1571	12-Jul-21	9:24	Daniel	[image]
1572	12-Jul-21	9:26	Robert	we don't really have any aimbot commands in console commands
1573	12-Jul-21	9:26	Robert	closest is the FOV indicator
1574	12-Jul-21	9:27	Daniel	you can load D2 it has the latest FW
1575	12-Jul-21	9:27	Daniel	and save the config
1576	12-Jul-21	9:27	Daniel	and see if there are any missing commands
1577	12-Jul-21	9:27	Robert	[animation]
1578	15-Jul-21	10:48	Robert	someone on CA noticed the 'streamproof = false' in D2 and asked about it, is there any safety risk I should warn them about?
1579	15-Jul-21	10:48	Daniel	It does do some hooks
1580	15-Jul-21	10:48	Daniel	And it hasn't been tested in depth yet
1581	15-Jul-21	10:49	Daniel	So it's risky I'd say

No.	Date	Time	Poster	Message
1582	15-Jul-21	10:49	Robert	okay, I'll mention that
1583	15-Jul-21	10:50	Robert	which app does it support? Is it OBS streamlabs or OBS studio?
1584	15-Jul-21	10:51	Daniel	Are they different?
1585	15-Jul-21	10:51	Robert	actually apparently there is OBS Studio and Stream Labs OBS which are based off the same original codebase
1586	15-Jul-21	10:51	Robert	but OBS Studio is better
1587	15-Jul-21	10:51	Robert	I don't know if it makes any difference on the rendering side
1588	15-Jul-21	10:51	Daniel	I tested on studio
1589	15-Jul-21	10:51	Robert	ok
1590	15-Jul-21	10:52	Daniel	But try the other one as well
1591	15-Jul-21	10:52	Daniel	Probably uses same DLL
1592	15-Jul-21	10:52	Robert	ok
1593	15-Jul-21	10:52	Robert	wow im gonna be just like pokimane
1594	15-Jul-21	10:55	Daniel	I'd fuck her
1595	15-Jul-21	11:12	Robert	the cheat is showing up in window capture, I haven't been able to get game capture to work to test that
1596	15-Jul-21	11:12	Robert	that is, with the console command enabled
1597	15-Jul-21	11:13	Daniel	Yeah game capture is what you need
1598	15-Jul-21	11:25	Robert	Dunno, I can't get game capture working for D2 though it worked without issue for RoS when I tested that briefly.
1599	15-Jul-21	12:25	Robert	Bungie says Game Capture isn't supported
1600	15-Jul-21	13:25	Robert	<a href="https://help.bungie.net/hc/en-us/articles/360049199891">https://help.bungie.net/hc/en-us/articles/360049199891</a>
1601	15-Jul-21	14:25	Robert	<a href="https://www.reddit.com/r/obs/comments/o1o29i/cannot_stream_destiny_2_in_game_capture/">https://www.reddit.com/r/obs/comments/o1o29i/cannot_stream_destiny_2_in_game_capture/</a>
1602	15-Jul-21	11:27	Daniel	Lol
1603	15-Jul-21	11:35	Robert	did you test this in D2 or just Fallout?
1604	15-Jul-21	12:11	Daniel	Only F76
1605	15-Jul-21	12:11	Daniel	Can't do anything against window capture
1606	16-Jul-21	12:49	Patrick	but even in wows daniel wants me to implement an aimbot beside the one that's already there so his interpretation of what we should do might differ
1607	16-Jul-21	13:19	Daniel	Alright so to clarify a few things, the existing Aimbot subsystem we have that is used in D2, Warframe etc.. is only meant for FPS games
1608	16-Jul-21	13:19	Daniel	Which means in a game like WOWs we need to create a new system, because it just doesn't work with the existing system.
1609	16-Jul-21	13:20	In reply to this message	So the above is an answer to this.

1611	18-Jul-21	12:00	Robert	[screenshot image]
1612	18-Jul-21	12:00	Robert	is there a way to do this?
1613	18-Jul-21	12:01	Robert	also is there a page I can link to on the WH console commands that lists the new key names for the updated system? Since it's not the old virtual key codes anymore
1614	18-Jul-21	12:15	Daniel	Yes
1615	18-Jul-21	12:16	Daniel	Just set thre key to -1 or something
1616	18-Jul-21	12:16	Daniel	Interface.key1 and 2
1617	18-Jul-21	12:17	Robert	ah gotcha
1618	18-Jul-21	12:17	Robert	will add those to the console commands list
1619	18-Jul-21	12:20	Daniel	Like I said you can run like warframe
1620	18-Jul-21	12:20	Daniel	And save the config to get all commands
1621	18-Jul-21	12:21	Robert	I did that for D2 but I didn't think about the interface key stuff as being in there
1622	27-Jul-21	18:29	Daniel	Well it looks like D2 updated
1623	27-Jul-21	18:30	Robert	there must be another hotfix tomorrow then
1624	28-Jul-21	18:32	Robert	that is weird
1625	28-Jul-21	18:34	Robert	[screenshot image]
1626	28-Jul-21	18:34	Robert	It's odd, I wonder if they patch the game early but the 'hotfix' is changing certain server elements?
1627	28-Jul-21	18:34	Robert	It doesn't really explain why the cheat would break now if the hotfix is tomorrow
1628	28-Jul-21	18:36	Daniel	pc booted, so atleast I can update d2
1629	28-Jul-21	18:36	Robert	I really don't know anything about that shit, I would have done the same thing as you and bought a new one
1630	28-Jul-21	18:37	Robert	you could try your motherboard support and describe the issue to them
1631	28-Jul-21	18:39	Daniel	you could actually make ur own panic bind now
1632	28-Jul-21	18:40	Robert	that is cool
1633	28-Jul-21	18:40	Daniel	bind f1 3dradar.active;bind f1 2dradar.active;bind f1 warning.active;
1634	28-Jul-21	18:40	Robert	I'm gonna have to make some documentation on what can be done with that shortcut command
1635	28-Jul-21	18:40	Robert	oh shit you can do multiple with 1 command without loading a custom config? That's massive
1636	28-Jul-21	18:41	Daniel	I also added a "Commands" command
1637	28-Jul-21	18:41	Daniel	that logs all to the console

No.	Date	Time	Poster	Message
1638	28-Jul-21	18:41	Daniel	I plan on having so you can click on a command and it will write it to the text field
1639	28-Jul-21	18:41	Robert	that would be really nice
1640	28-Jul-21	18:41	Daniel	I also want to add CTRL + A for delete
1641	28-Jul-21	18:42	Daniel	and moving the text   thing
1642	28-Jul-21	18:42	Daniel	so u can delete in the middle
1643	28-Jul-21	18:42	Robert	nice
1644	28-Jul-21	18:42	Robert	So for multiple things to be bound does it all have to be in one command? And then if you entered another command with bind f1 it would override it?
1645	28-Jul-21	18:42	Daniel	no it does all commands bound to f1
1646	28-Jul-21	18:43	Robert	oh, so it keeps adding them
1647	28-Jul-21	18:43	Daniel	Yeah
1648	28-Jul-21	18:43	Robert	is there an unbind?
1649	28-Jul-21	18:43	Daniel	You just remove the line from the config
1650	28-Jul-21	18:43	Daniel	and reload it
1651	28-Jul-21	18:43	Robert	gotcha
1652	28-Jul-21	18:43	Daniel	or do it via Console
1653	28-Jul-21	18:43	Robert	how would you remove it via console
1654	28-Jul-21	18:44	Daniel	Just rmeove the text
1655	28-Jul-21	18:44	Daniel	Let me send screen
1656	28-Jul-21	18:44	Robert	we don't have to go over it now if you don't want to, I just brought it up since you were talking about it
1657	28-Jul-21	18:44	Daniel	cant do anything while IDA analyseis
1658	28-Jul-21	18:44	Robert	ah
1659	28-Jul-21	18:45	Daniel	[screenshot image]
1660	28-Jul-21	18:45	Robert	you could drink
1661	28-Jul-21	18:45	Daniel	when you press "TAB" it auto completes that line
1662	28-Jul-21	18:45	Daniel	and then you can just delete and press enter
1663	28-Jul-21	18:45	Robert	oh, that's new then
1664	28-Jul-21	18:46	Robert	so it's kinda like a basic text editor in the console
1665	28-Jul-21	18:46	Daniel	yeah before it only did the command without values
1666	28-Jul-21	18:46	Daniel	yeah just a garbage text editor
1667	28-Jul-21	18:48	Robert	that is cool
1668	28-Jul-21	18:48	Robert	the amount of utility you added with this is next level

1670	28-Jul-21	18:50	Robert	Like the ability to switch bone aiming with like a button, so you can have your headshot aimbot when you need it but maybe mostly use body to look more legit, or different buttons to load different aimbot configs so you can have a large FOV and aim at body for your shotgun, and instantly swap to low fov headshot aimbotting when you swap to a rifle
1671	28-Jul-21	18:51	Robert	or different ESP settings in fallout, like you want to find items you have one, when you don't you turn down the item ranges or have different filters in different configs you load
1672	28-Jul-21	18:51	Daniel	yeah
1673	28-Jul-21	19:01	Daniel	did we have another d2 acc?
1674	28-Jul-21	19:02	Robert	there's the ones in trello and I think there was one that had PVP enabled which we used for testing certain stuff

1700	30-Jul-21	15:32	Robert	oh do I have to do Key.binds bind 2 aimbot.bone 3
1701	30-Jul-21	15:33	Daniel	Yes
1702	30-Jul-21	15:33	Daniel	Bind 2 xxxx
1703	30-Jul-21	15:33	Robert	okay got it, it seemed to insert some random shit when I didn't add 'bind' in there
1704	30-Jul-21	15:34	Daniel	Because it doesn't know the key
1705	30-Jul-21	15:34	Daniel	Because you didn't provide it
1706	30-Jul-21	15:51	Robert	yeah this is great
1707	30-Jul-21	15:51	Robert	[screenshot image]
1708	30-Jul-21	15:51	Robert	I think the aimbot.showfov may be bugged, this is with 20 fov
1709	30-Jul-21	15:52	Robert	or, I guess 20 fov is a lot
1710	30-Jul-21	15:52	Robert	it turns out it is accurate, but why is 20 fov that big
1711	30-Jul-21	15:52	Robert	small fov or something
1712	30-Jul-21	15:52	Robert	in game?
1713	30-Jul-21	15:53	Daniel	Because it's degrees
1714	30-Jul-21	15:53	Daniel	Is 180 full screen?

1723	30-Jul-21	15:57	Daniel	Should be fine really
1724	30-Jul-21	15:57	Daniel	Depends on the fov

1739	31-Jul-21	12:38	Robert	[screenshot image]
1740	31-Jul-21	12:38	Robert	I noticed something interesting, I think if you have a number of binds in a profile it can seemingly slow things down to the point where using the same key in multiple saved configs actually triggers it multiple times. (At least through parsec)
1741	31-Jul-21	12:38	Robert	For testing I have F2 set in two custom configs, each loading the other save, so it works like a toggle between them.
1742	31-Jul-21	12:38	Robert	When I use this list of keybinds with F2 doing a load at the end, it ends up running the command in both custom configs, and ends up staying on the same config.
1743	31-Jul-21	12:38	Robert	If I put it at the beginning of the list it works as intended only running once
1744	31-Jul-21	12:38	Robert	[Key]
1745	31-Jul-21	12:38	Robert	Binds=bind 1 aimbot.bone 6;bind 1 aimbot.AimAngleLimit=5.4;bind 2 aimbot.bone 3;bind 2 aimbot.aimanglelimit 10;bind F5 aimbot.active;bind F6 2dradar.active;bind F7 3dradar.active;bind F2 load Destiny2;
1746	31-Jul-21	12:38	Robert	vs
1747	31-Jul-21	12:39	Robert	[Key]
1748	31-Jul-21	12:39	Robert	Binds=bind F2 load Destiny2;bind 1 aimbot.bone 6;bind 1 aimbot.AimAngleLimit=5.4;bind 2 aimbot.bone 3;bind 2 aimbot.aimanglelimit 10;bind F5 aimbot.active;bind F6 2dradar.active;bind F7 3dradar.active;
1749	31-Jul-21	12:39	Robert	
1750	31-Jul-21	12:39	Robert	not sure why telegram bolding doesn't work for this last one
1751	31-Jul-21	13:12	Daniel	Not sure i understand
1752	31-Jul-21	13:13	Robert	First config: F2 loads 2nd config. 2nd config, F2 loads 1st config. But whether the bind is at the beginning or end of the list seems to affect if it works correctly.
1753	31-Jul-21	13:13	Robert	Seems to be sent once, then 2nd config loads, but it gets sent a second time (and loads first config again).. Only when it's at the end of the list.

1754	31-Jul-21	13:13	Robert	I have only been able to test through parsec though so it could be it affects it.
1755	31-Jul-21	13:13	Daniel	Oh I see
1756	31-Jul-21	13:14	Daniel	So f2 loads config1
1757	31-Jul-21	13:14	Daniel	and config1 has another bind for f2
1758	31-Jul-21	13:14	Daniel	which loads config12?
1759	31-Jul-21	13:14	Robert	yes
1760	31-Jul-21	13:14	Daniel	and it gets triggered
1761	31-Jul-21	13:14	Robert	i've tested it multiple times and whether it's at the end of the list or the beginning is what makes the difference
1762	31-Jul-21	13:14	Daniel	Hmm
1763	31-Jul-21	13:15	Daniel	If you put it first does it then work as intended or?
1764	31-Jul-21	13:15	Robert	exactly
1765	31-Jul-21	13:17	Daniel	I think there is some sort of read write exception as well
1766	31-Jul-21	13:17	Daniel	I will look into it
1767	31-Jul-21	13:18	Daniel	because think about it
1768	31-Jul-21	13:19	Daniel	you loop the keys and then you load the config which changes the keys again
1769	31-Jul-21	13:19	Daniel	and we are still inside the loop
1770	31-Jul-21	13:19	Daniel	[screenshot image]
1771	31-Jul-21	13:19	Daniel	I can try this?
1772	31-Jul-21	13:19	Robert	if you want me to test it sure
1773	31-Jul-21	13:19	Daniel	was it d2?
1774	31-Jul-21	13:19	Robert	yes
1775	31-Jul-21	13:19	Daniel	actually I can test in my local env
1776	31-Jul-21	13:20	Robert	maybe see first if it happens for you, I can give you my configs
1777	31-Jul-21	13:20	Daniel	alright

1833	2-Aug-21	8:16	Patrick	mm good point
1834	2-Aug-21	8:16	Daniel	I just dont udnerstand how it works
1835	2-Aug-21	8:16	Patrick	i dont know either
1836	2-Aug-21	8:16	Daniel	If you look into the things they sue for the copyright thing
1837	2-Aug-21	8:17	Daniel	<a href="https://www.law.cornell.edu/uscode/text/17/1201">https://www.law.cornell.edu/uscode/text/17/1201</a>
1838	2-Aug-21	8:19	Daniel	That entire section sounds a lot like bypassing shit
1839	2-Aug-21	8:19	Daniel	like DRM
1840	2-Aug-21	8:19	Patrick	it does
1841	2-Aug-21	8:20	Daniel	The cheats that got sued all had Inf ammo and teleport and stuff
1842	2-Aug-21	8:20	Daniel	I wonder if that is what they mean by circumvent
1843	2-Aug-21	8:21	Patrick	i think they mean duplication
1844	2-Aug-21	8:22	Patrick	these laws were made to prevent the duplication of software
1845	2-Aug-21	8:22	Daniel	but how can they sue for that then
1846	2-Aug-21	8:23	Patrick	well, english law is often based on precedent in court
1847	2-Aug-21	8:23	Patrick	meaning that if a similar sentence was made before they can use it as a base
1848	2-Aug-21	8:24	Patrick	and in this case it would be blizzard vs wow glider
1849	2-Aug-21	8:24	Daniel	yeah that was total automation tho
1850	2-Aug-21	8:26	Patrick	<a href="https://en.wikipedia.org/wiki/MDY_Industries,_LLC_v._Blizzard_Entertainment,_Inc.">https://en.wikipedia.org/wiki/MDY_Industries,_LLC_v._Blizzard_Entertainment,_Inc.</a>
1851	2-Aug-21	8:27	Patrick	However, the court also ruled, contrary to Chamberlain v. Skylink, that a finding of circumvention under the Digital Millennium Copyright Act does not require a nexus between circumvention and actual copyright infringement.
1852	2-Aug-21	8:39	Daniel	I know but those people are all in the US
1853	2-Aug-21	8:39	Daniel	Like if you were located in another country wouldn't they need to show proof first?
1854	2-Aug-21	10:29	Robert in reply to Daniel	This game seems dead, I'd say it's probably a waste of time
1855	2-Aug-21	10:32	Robert in reply to Daniel	I'm going to unlist the preview cheat for now, people are posting in random topics with WoWS issues and are using the preview cheat

1856	2-Aug-21	10:46	In reply to this message	I added 'Destiny' to be censored to *** on WH just so any testimonials people leave will be less likely to be shown in google. Best to use 'D2' when referring to it on the site
1857	2-Aug-21	11:20	Patrick	You mean remove from launcher?
1858	2-Aug-21	11:20	Robert	for wows preview yes
1859	2-Aug-21	11:21	Robert	you can't use it and have good results
1860	3-Aug-21	13:30	Daniel	that Cuomo guy in new york is gettng mee2d
1861	3-Aug-21	13:30	Daniel	Is it just me or are democrats generally the sexual predators?
1862	3-Aug-21	13:33	Daniel	<a href="https://wallhax.com/status/">https://wallhax.com/status/</a>
1863	3-Aug-21	13:33	Daniel	Should we hide D2 from status page or?
1864	3-Aug-21	13:41	Patrick in reply to Robert	In reply to this message
1865	3-Aug-21	13:41	Patrick in reply to Robert	
1866	3-Aug-21	13:42	Patrick in reply to Robert	he killed 1000s of people
1867	3-Aug-21	13:42	Patrick in reply to Robert	but he gets metood
1868	3-Aug-21	13:43	Robert in reply to Daniel	yeah I'll hide it
1869	6-Aug-21	10:14	Daniel	Are our current resellers evne that good?
1870	6-Aug-21	10:14	Daniel	They never seem online
1871	6-Aug-21	10:15	Daniel	btw, have you ever seen this
1872	6-Aug-21	10:15	Robert	Yimosecai is in china so I think he has different hours than US people but he says he responds to people when he is online. Goodman seems to be active again.
1873	6-Aug-21	10:15	Robert	We had 2 resellers off site, one hasn't purchased again I think because we have a branded client so they lose customers to us
1874	6-Aug-21	10:15	Daniel	he is like a diffrenrt orange color

1876	6-Aug-21	10:15	Daniel	684×90
1877	6-Aug-21	10:15	Robert	yeah that means single sub
1878	6-Aug-21	10:15	Daniel	Ah
1879	6-Aug-21	10:17	Robert	most of the reseller contacts I have gotten have been people who want to resell on their own discord or site and haven't resold before. I haven't gotten any interest in being a reseller on our forums. I think a lot of resellers are used to large margins, like the offsite ones will practically double our pricing to sell to their members
1880	6-Aug-21	10:17	Robert	but then they're also only interested in very specific cheats, one was D2, one was ARK
1881	6-Aug-21	10:17	Daniel	Hmm yeah
1882	6-Aug-21	10:32	Robert	Apparently there's a livestream about the D2 Season 15 on Aug 24 and speculation it may release that day or a while after that. So if there is some new anti-cheat shit it'll probably be announced then
1883	6-Aug-21	10:33	Daniel	Ah
1884	6-Aug-21	10:34	Robert	and cross play is coming in that season so they may want to try and cut down on PC cheaters
1885	6-Aug-21	10:34	Daniel	I find it strange if they are looking for Anti cheat developers, and then goes for EAC
1886	6-Aug-21	10:35	Daniel	<a href="https://careers.bungie.com/jobs/3120534/data-scientist-anti-cheat">https://careers.bungie.com/jobs/3120534/data-scientist-anti-cheat</a>
1887	6-Aug-21	10:36	Robert	maybe they want to detect cheats with regular anticheat, and then detect aimbots with their own server anti-cheat?
1888	6-Aug-21	10:37	Daniel	Its possible
1889	6-Aug-21	10:51	Robert	it's not even supposed to work, is it?
1890	6-Aug-21	10:52	Daniel	Yeah it doesn't
1891	6-Aug-21	10:52	Daniel	Because we send mouse input
1892	6-Aug-21	10:52	Robert	I see, so the framework supports using the controller for the aim key but the cheat doesn't. I will let him know
1893	6-Aug-21	11:06	Daniel	Yeah if we had the aim angles it would work
1894	7-Aug-21	9:30	Daniel	I just updated the new drivers today, some hours ago
1895	7-Aug-21	9:30	Daniel	so I hope that will help a bit
1896	7-Aug-21	9:31	Robert	when you posted the splitgate topic 1 hour 20 mins ago?
1897	7-Aug-21	9:31	Daniel	yes
1898	7-Aug-21	9:31	Robert	okay so the apex stuff was from before, that's good
1899	7-Aug-21	9:31	Daniel	I tested for for D2 as well, worked fine
1900	8-Aug-21	14:53	Daniel	Couldnt we change Destiny
1901	8-Aug-21	14:53	Daniel	to like Dystiny

1903	8-Aug-21	14:54	Daniel	***** looks kinda dumb
1904	8-Aug-21	14:54	Robert	we'd need some kind of addon to do that
1905	8-Aug-21	14:54	Daniel	Ah
1906	8-Aug-21	14:54	Daniel	Nvmd then
1907	15-Aug-21	8:26	Robert	did you ever get any idea why those D2 people had issues with binds?
1908	15-Aug-21	8:27	Daniel	No but I did some updates to that commands as well
1909	15-Aug-21	8:27	Robert	should I ask them to try again?
1910	15-Aug-21	8:27	Daniel	Havent uploaded this yet
1911	15-Aug-21	8:27	Robert	ah I thought maybe you had done that in a past version
1912	15-Aug-21	8:27	Robert	but yeah I guess D2 cheat wouldn't have been updated
1913	15-Aug-21	8:35	Daniel	<a href="https://wallhax.com/forum/dest-ny-2-a/33626-bug-changing-menu-close-keybinds-ini-files-causes-game-crash.html">https://wallhax.com/forum/dest-ny-2-a/33626-bug-changing-menu-close-keybinds-ini-files-causes-game-crash.html</a>
1914	15-Aug-21	8:35	Daniel	this you are refering to?
1915	15-Aug-21	8:36	Robert	no, I meant the topic from a week or 2 ago but maybe this could be related
1916	15-Aug-21	8:36	Daniel	It sounds like its key related
1917	15-Aug-21	8:36	Robert	mostly becasue I'm excited about binds and I think people will like them
1918	15-Aug-21	8:38	Robert	oh yeah, we had someone in SoT wanting to be able to change the vehicle prediction settings automatically for like a chain shot that apparently had a different velocity, so I mentioned to them that we were working on binds where they could have a different buttons for different prediction settings
1919	18-Aug-21	8:42	Daniel	<a href="https://wallhax.com/forum/private-discussion/33685-questions-answered.html">https://wallhax.com/forum/private-discussion/33685-questions-answered.html</a>

1922	18-Aug-21	9:35	Daniel	Updated F76

1924	18-Aug-21	9:52	Daniel	D2 works

1929	19-Aug-21	10:31	Patrick	The leaked pages list that this is coming in update 3.2.0. The problem? That was back in May, and we have had several patches since then with no BattlEye.
1930	19-Aug-21	10:39	Robert	I think the new season announcement is in a few days anyway so they'll probably confirm it there if it's accurate
1931	19-Aug-21	14:56	Robert	btw we have a few people asking about battleye in d2 <a href="https://wallhax.com/forum/dest-ny-2-a/33703-2-anti-cheat.html">https://wallhax.com/forum/dest-ny-2-a/33703-2-anti-cheat.html</a>

1933	19-Aug-21	14:59	Robert	nope
1934	19-Aug-21	14:59	Robert	but people are scared
1935	19-Aug-21	15:01	Daniel	I don't know what to tell them
1936	19-Aug-21	15:01	Robert	if they add it are we going to try to support it?
1937	19-Aug-21	15:02	Daniel	Yeah
1938	19-Aug-21	15:03	Robert	if we wanted to do a special sub for it I'm not sure how we could do it
1939	19-Aug-21	15:03	Robert	right now if someone tells their friend or community we have a cheat, a new person can just buy VIP and get it
1940	19-Aug-21	15:04	Robert	maybe we could make it only available to buy if you already have purchased from us before or something, and if we charged more for it we might still have a decent number of users?

1952	19-Aug-21	18:47	Daniel	They are literally still selling
1953	19-Aug-21	18:48	Patrick	We should take d2 down imho

1958	19-Aug-21	18:51	Patrick	It's weird that they keep suing people considering that they have battleye in the pipe

1968	19-Aug-21	18:55	Daniel	Or we can wait and see what you will recieve in a letter
1969	19-Aug-21	18:55	Robert	I will, but definitely not fighting it
1970	19-Aug-21	18:55	Robert	if they give us an out to stop selling

1980	19-Aug-21	18:59	Daniel	I think its bullshit to deter others
1981	19-Aug-21	18:59	Daniel	Anyways, that guy with 2 million was in California as well
1982	19-Aug-21	19:00	Patrick	Well if they file a lawsuit in California
1983	19-Aug-21	19:00	Patrick	Could they enforce it in Canada

1991	19-Aug-21	19:02	Patrick	Did we ever use copyrighted material on our site?
1992	19-Aug-21	19:03	Robert	for destiny, a long time ago but not recently as far as I know
1993	19-Aug-21	19:03	Robert	if they brought a lawsuit they must have joined the site though
1994	19-Aug-21	19:03	Daniel	I also changed the name in the Client, so I have no idea
1995	19-Aug-21	19:03	Robert	maybe there's something in the paid area
1996	19-Aug-21	19:04	Patrick	They will probably just use one form and fill us in
1997	19-Aug-21	19:05	Patrick	I doubt they handcraft these suits
1998	19-Aug-21	19:07	Patrick	Any settlement would be based on how much money we made of d2
1999	19-Aug-21	19:08	Robert	Yeah, luckily we have the logs for who loaded the cheats
2000	19-Aug-21	19:08	Daniel	Lets not speculate, and wait and see
2001	19-Aug-21	19:08	Robert	but yeah, there's no reason to get ahead of ourselves
2002	19-Aug-21	19:08	Daniel	Because that just leads to stupid shit
2003	19-Aug-21	19:08	Patrick	I have to admit I am a bit panicked
2004	19-Aug-21	19:09	Daniel	Don't be

2008	19-Aug-21	19:10	Robert	D2 shouldn't be there, but even if it was it's an embed, it's not hosted on our site
2009	19-Aug-21	19:10	Daniel	Alright

2015	19-Aug-21	19:12	Daniel	Yeah so contact lawyer, preplan and wait to see what shows up at your virtual office
2016	19-Aug-21	19:14	Robert	Realistically it's gonna probably be a few days, when I have contacted lawyers before they are often wanting to meet days later because of appointments and shit, so it could be a bit though I will try to get something tomorrow if at all possible
2017	19-Aug-21	19:14	Daniel	Yeah that's fine
2018	19-Aug-21	19:15	Patrick	We could also ask Bossland
2019	19-Aug-21	19:15	Robert	if you have a contact with him you could, I don't really talk to those guys since overwatch because of all that.
2020	19-Aug-21	19:17	Patrick	Ok
2021	19-Aug-21	19:17	Patrick	I don't
2022	19-Aug-21	19:18	Patrick	But I would contact them regardless
2023	19-Aug-21	19:21	Robert	I'm guessing I don't need a special lawyer just to reach out to them and ask about dismissing/settling the lawsuit, it's only if I'm fighting it that I'd need a badass
2024	19-Aug-21	19:21	Robert	so that could come later if needed
2025	19-Aug-21	19:21	Patrick	Let's hope it doesn't
2026	19-Aug-21	19:21	Daniel	They will likely refer you to a specialist in US copyright law
2027	19-Aug-21	19:22	Patrick	Our primary focus should be to settle though
2028	19-Aug-21	19:22	Daniel	The way I see it, the only thing we violation is DRM circumvention. And maybe we encourage our users to break their TOS
2029	19-Aug-21	19:22	Robert	problem is those types of lawyers are gonna be fucking expensive
2030	19-Aug-21	19:22	Robert	and hard to even meet with probably
2031	19-Aug-21	19:23	Patrick	The question is how relevant that would be given we aren't in America
2032	19-Aug-21	19:24	Robert	so as far as I'm concerned what they're suing us for doesn't matter if we play ball with them, the only thing is the lawyer might not know how to negotiate against them if they're not specialized in that shit
2033	19-Aug-21	19:24	Daniel	Can you send some of the websites of the lawyer office you are considering?
2034	19-Aug-21	19:25	Patrick	I am going to try and sleep

2050	19-Aug-21	19:28	Robert	wtf is this, can you even view it?
2051	19-Aug-21	19:28	Daniel	Trying to find a better one
2052	19-Aug-21	19:29	Daniel	Just this
2053	19-Aug-21	19:29	Daniel	Bungie's lawsuit against Elite Boss Tech Inc., based in Montreal, alleges copyright infringement, civil conspiracy, breach of contract, intentional interference in contractual relationships and violations of the Digital Millennium Copyright Act, the Anti-Corruption and Corrupt Organizations Act and the Computer Fraud Act and abuse.
2054	19-Aug-21	19:29	Daniel	If found responsible, Elite Boss Tech would be forced to shut down and destroy all its scams related to Fate 2, and would be legally prohibited from continuing to play Fate 2 or offer cheats for future games that Bungie produces. It would also be on the hook for Bungie's litigation costs, punitive damages and an unspecified amount of financial restitution that Bungie's suit leaves to the discretion of the court.
2055	19-Aug-21	19:29	Robert	that was from geekwire
2056	19-Aug-21	19:29	Robert	"Bungie's suit against Elite Boss Tech Inc., based in Montreal, alleges copyright infringement, civil conspiracy, breach of contract, intentional interference with contractual relations, and violations of the Digital Millennium Copyright Act, the Racketeering Influenced and Corrupt Organizations Act, and the Computer Fraud and Abuse Act.

2058	19-Aug-21	19:30	Daniel	Yeah
2059	19-Aug-21	19:30	Daniel	It also quietly filed a case against the Aimjunkies in mid-June.
2060	19-Aug-21	19:32	Daniel	Perkins Coie filed a copyright lawsuit on behalf of Bungie Tuesday in Washington Western District Court over the company's popular video game series Destiny. The complaint pursues claims against AimJunkies.com and other defendants for allegedly distributing software that allows players to cheat at the game Destiny 2. Attorneys have not yet appeared for the defendants. The case is 2:21-cv-00811, Bungie Inc v. Aimjunkies.com et al.
2061	19-Aug-21	19:32	Daniel	Theirs is a little different
2062	19-Aug-21	19:32	Daniel	So essentially they are suing their domain?
2063	19-Aug-21	19:33	Patrick	Or they don't know the company name
2064	19-Aug-21	19:34	Daniel	<a href="https://opencorporates.com/companies/us_de/5264387">https://opencorporates.com/companies/us_de/5264387</a>
2065	19-Aug-21	19:34	Daniel	This is aimjunies
2066	19-Aug-21	19:34	Patrick	I know
2067	19-Aug-21	19:34	Daniel	Yeah but look, located in Delaware, some places they filed lawsuit with us
2068	19-Aug-21	19:35	Patrick	They used a different firm for us
2069	19-Aug-21	19:35	Robert	that law.com site mentioned that Bungie is a delaware company so that's why
2070	19-Aug-21	19:36	Daniel	Where is knownsrv hosted?
2071	19-Aug-21	19:36	Robert	our server is in the EU
2072	19-Aug-21	19:36	Daniel	Ah good
2073	19-Aug-21	19:36	Patrick	It said they filed a Rico suit against us
2074	19-Aug-21	19:38	Patrick	Rico suits are for organized crime
2075	19-Aug-21	19:38	Patrick	I wonder if that's a mistake
2076	19-Aug-21	19:38	Robert	it seems like they threw everything at the wall
2077	19-Aug-21	19:38	Daniel	No its because we are doing criminal copyright infringement
2078	19-Aug-21	19:39	Daniel	Atleast they think we are
2079	19-Aug-21	19:39	Patrick	Did they file Rico suits against others!
2080	19-Aug-21	19:39	Patrick	?
2081	19-Aug-21	19:42	Robert	maybe they want the ability to go after individuals not in the company, and it seems RICO allows that

2084	19-Aug-21	19:50	Daniel	@extcaat I'd go with that Brouillette guy

2086	19-Aug-21	19:51	Robert	he's a criminal lawyer, for negotiating and that I think that might be fine

2115	20-Aug-21	3:38	Patrick	he says the case will happen in front of a us court and we don't have a chance
2116	20-Aug-21	3:42	Patrick	he thinks me and daniel will probably be fine but rob could be in trouble
2117	20-Aug-21	3:43	Patrick	so to save rob our best course of action is to basically hand over the money we made from D2, pay their lawyers, delete the source code and remove any destiny 2 related content from the forums
2118	20-Aug-21	3:45	Patrick	Bossland 20.08.2021 03:44:40
2119	20-Aug-21	3:45	Patrick	Ich sehe dass Daniel Larsen auch eine Firma in DK hat, Dsoft in Lunderskov
2120	20-Aug-21	3:45	Patrick	Patrick 20.08.2021 03:44:50
2121	20-Aug-21	3:45	Patrick	ja das richtig
2122	20-Aug-21	3:45	Patrick	daniel is further insulated by his company
2123	20-Aug-21	3:46	Patrick	if its a limited liability company
2124	20-Aug-21	3:46	Patrick	this will help him especially if he invoiced as DSoft
2125	20-Aug-21	3:49	Patrick	but apparently there is a contract the US and Canada have, called NAFTA, which makes us sentencing enforceable in canada
2126	20-Aug-21	4:14	Daniel	Right but lets Wait and see what we actually receive first
2127	20-Aug-21	4:16	Patrick	yea
2128	20-Aug-21	7:09	Daniel	Did we ever receive a copyright complaint from them?
2129	20-Aug-21	7:09	Daniel	Via Cloudflare or something
2130	20-Aug-21	7:10	Robert	99% sure no, unless somehow we didn't get it
2131	20-Aug-21	7:10	Daniel	Our searched my email yesterday, and the admin@wh one, didn't find anything
2132	20-Aug-21	7:11	Daniel	Anyways, I told Riddell , and he told me just to rename his account, which I did
2133	20-Aug-21	7:11	Robert	so do you think they looked at usernames on our site that had special ranks?
2134	20-Aug-21	7:11	Robert	and then tried to connect them
2135	20-Aug-21	7:11	Daniel	Not sure really, could be
2136	20-Aug-21	7:11	Daniel	Riddell is user id 3
2137	20-Aug-21	7:11	Daniel	So its possible
2138	20-Aug-21	7:11	Daniel	I am 1, and you are 2.

2143	20-Aug-21	7:12	Daniel	From 2017
2144	20-Aug-21	7:12	Robert	maybe we can pin it all on him ☺
2145	20-Aug-21	7:13	Robert	he was pulling the strings the whole time
2146	20-Aug-21	7:13	Daniel	If you think about it, our structure is very fucked

2148	20-Aug-21	7:13	Daniel	You handle the payments, but we provide the software

2150	20-Aug-21	7:14	Daniel	Robert James Duthie Nelson(CDA)
2151	20-Aug-21	7:14	Daniel	What does CDA mean?
2152	20-Aug-21	7:14	Daniel	Canada?
2153	20-Aug-21	7:14	Robert	I don't know
2154	20-Aug-21	7:14	Robert	maybe
2155	20-Aug-21	7:15	Robert	so if we are trying to play nice I feel like we should take down the D2 cheats if you haven't already
2156	20-Aug-21	7:15	Daniel	We can do that yes
2157	20-Aug-21	7:16	Robert	because they surely have an account with us to check that stuff
2158	20-Aug-21	7:16	Daniel	Maybe do an announcement as well?
2159	20-Aug-21	7:17	Robert	yeah I guess
2160	20-Aug-21	7:17	Robert	I don't really want to go into details, maybe just like 'Effective immediately we are no longer offering this software'
2161	20-Aug-21	7:17	Robert	i dunno, it's gonna be a shit show
2162	20-Aug-21	7:19	Daniel	Maybe we just hide the forum
2163	20-Aug-21	7:19	Daniel	D2 subforum I mean
2164	20-Aug-21	7:21	Robert	I guess that will help for now
2165	20-Aug-21	7:24	Robert	I took it down on CA
2166	20-Aug-21	7:24	Robert	and hid forums on both sites
2167	20-Aug-21	7:25	Daniel	Roger

2174	20-Aug-21	8:43	Patrick	Did we ever sell d2 on artificial sensei?
2175	20-Aug-21	8:43	Daniel	Think so, but not for long
2176	20-Aug-21	8:43	Robert	yeah, not for long
2177	20-Aug-21	8:44	Robert	this is weird though, I wonder why they think we have those sites

2182	20-Aug-21	8:44	Daniel	the various cheats and hacks into the game, can transform their unwitting users' personal
2183	20-Aug-21	8:44	Daniel	computers into proxies for a slew of illegal activities and render them exceptionally vulnerable to

2187	20-Aug-21	8:44	Daniel	wtf
2188	20-Aug-21	8:45	Daniel	They got my address wrong, they are using my parents address
2189	20-Aug-21	8:46	Patrick	Does this tell you where they could have gotten your info from?
2190	20-Aug-21	8:47	Daniel	Could be domain, but could also be from BattleNet

2198	20-Aug-21	9:00	Patrick	Most of the stuff they ask for is reasonable
2199	20-Aug-21	9:01	Daniel	Should we take the cheat down entirely and make an announcement or?
2200	20-Aug-21	9:01	Robert	probably should
2201	20-Aug-21	9:01	Patrick	I would do it
2202	20-Aug-21	9:02	Daniel	An order requiring Defendants to immediately and permanently disable all extant cheating software;
2203	20-Aug-21	9:03	Daniel	I don't agree with this
2204	20-Aug-21	9:04	Daniel	Unless it means anything related to D2
2205	20-Aug-21	9:04	Daniel	Then I agree
2206	20-Aug-21	9:05	Patrick	Yea maybe we can ask them for clarification
2207	20-Aug-21	9:06	Patrick	But first Rob should talk to a lawyer
2208	20-Aug-21	9:07	Daniel	Right, I am driving over to my dad's in a sec
2209	20-Aug-21	9:07	Patrick	Good
2210	20-Aug-21	9:07	Robert	calling some now
2211	20-Aug-21	9:09	Patrick	We should also remove any destiny 2 videos
2212	20-Aug-21	9:30	Robert	there shouldn't be any really
2213	20-Aug-21	9:31	Robert	so one criminal lawyer is going to refer me to an IP lawyer
2214	20-Aug-21	9:31	Robert	Another IP law firm the lawyer asked me to send him some details and is going to call me after he reviews that

2224	20-Aug-21	9:53	Patrick	Yea be right there
2225	20-Aug-21	9:53	Daniel	Or we can wait a day and see what the others say?
2226	20-Aug-21	9:53	Daniel	I doubt they will serve us 1 day after sending the complaint
2227	20-Aug-21	9:53	Daniel	That seems harsh
2228	20-Aug-21	9:53	Patrick	I agree with it
2229	20-Aug-21	9:57	Robert	okay, doing it
2230	20-Aug-21	9:57	Robert	thing is I don't know much about courts but the longer we take who knows how much work they are doing
2231	20-Aug-21	9:57	Robert	so sooner may reflect better on us
2232	20-Aug-21	9:59	Patrick	Yea
2233	20-Aug-21	9:59	Patrick	Do it
2234	20-Aug-21	10:02	Robert	sent it to him and emailed him
2235	20-Aug-21	10:04	Patrick	Thanks Rob
2236	20-Aug-21	10:04	Robert	I don't think anyone would be able to do much more before the weekend, anytime I have called attorneys before they always want to do an appointment like 2-3 days layter
2237	20-Aug-21	10:05	Robert	so we just have to wait pretty much
2238	20-Aug-21	10:11	Patrick	Yea
2239	20-Aug-21	11:01	Daniel	When you hear back, make sure to forward us the information so we can take a look
2240	20-Aug-21	11:45	Robert	So far he just asked me the details of my company he is representing, and said he would tell Bungie that he represents me and the companies

2245	20-Aug-21	14:07	Patrick	Let's hope they accept it
2246	20-Aug-21	14:08	Daniel	Well from what I understand they are sending the terms right?
2247	20-Aug-21	14:08	Daniel	And then we accept if they are 2 our liking?
2248	20-Aug-21	14:08	Robert	I don't think so, this is basically like my lawyer saying that he's going to talk with me and then reach out to them next week
2249	20-Aug-21	14:08	Daniel	Ah right

2251	20-Aug-21	14:09	Daniel	Can you write up a common response to these people that we can copy paste
2252	20-Aug-21	14:09	Daniel	<a href="https://wallhax.com/forum/general-discussion/33724-dear-developer-d2.html">https://wallhax.com/forum/general-discussion/33724-dear-developer-d2.html</a>
2253	20-Aug-21	14:09	Daniel	Sorry, we have stopped supporting Destiny 2. If you wish to request a refund or subscription transfer please message Slytiger?
2254	20-Aug-21	14:10	Daniel	or something like that
2255	20-Aug-21	14:11	Robert	the refund part is tricky, I really don't know what to say. Because if we offer them we may get a bunch to create a large spike in our refunds rate with Paypro
2256	20-Aug-21	14:11	Robert	I don't know how many people will reach out for refunds if we just don't mention that
2257	20-Aug-21	14:12	Daniel	In that case it might be "goodwill" to message Paypro about that or something
2258	20-Aug-21	14:12	Daniel	Is it still available on the launcher?
2259	20-Aug-21	14:12	Robert	one sec, I have a bit of an idea
2260	20-Aug-21	14:12	Robert	What if it was like this
2261	20-Aug-21	14:12	Robert	"For legal reasons we will no longer be able to offer any D2 software.
2262	20-Aug-21	14:12	Robert	If you were using our our D2 software and would like a 30 day extension of VIP or a different membership, please submit a ticket here"
2263	20-Aug-21	14:13	Robert	then anyone who asks for a refund we can just refund them
2264	20-Aug-21	14:13	Daniel	That sounds good
2265	20-Aug-21	14:14	Robert	but not actually mention refunds at all on the forums, always PM or ticket
2266	20-Aug-21	14:17	Robert	Here would be the final one then:
2267	20-Aug-21	14:17	Robert	For legal reasons we will no longer be able to offer any D2 software.
2268	20-Aug-21	14:17	Robert	If you were using our our D2 software and would like a 30 day extension of VIP or a different membership, please submit a ticket here: <a href="https://wallhax.com/member/helpdesk">https://wallhax.com/member/helpdesk</a>
2269	20-Aug-21	14:18	Daniel	I will use that
2270	20-Aug-21	14:18	Robert	thanks
2271	20-Aug-21	14:33	Patrick	Do you guys know how many times we sold d2 on CA and AS?
2272	20-Aug-21	14:33	Robert	not off the top of my head
2273	20-Aug-21	14:34	Patrick	They will want to know
2274	20-Aug-21	14:34	Robert	let's wait and see
2275	20-Aug-21	14:34	Patrick	Ok
2276	20-Aug-21	8:39	Daniel	I was thinking, perhaps we can have a lawyer go through our site, give some tips? And work out of proper ToS?

No.	Date	Time	Poster	Message
2277	20-Aug-21	8:39	Robert	yeah maybe
2278	20-Aug-21	8:39	Robert	I'm open to that
2279	20-Aug-21	9:31	Patrick	I am too although I would wait what bungees demands are
2280	20-Aug-21	9:35	Robert	yeah, that was my thought too
2281	20-Aug-21	9:47	Daniel	[screenshot image]
2282	20-Aug-21	9:47	Daniel	Fixed
2283	20-Aug-21	9:47	Robert	nice
2284	20-Aug-21	9:48	Robert	do you think the key.binds aren't working for others in any games?
2285	20-Aug-21	9:48	Robert	I saw that post for D2
2286	20-Aug-21	9:48	Daniel	Yeah I saw that, no idea why they crash
2287	20-Aug-21	9:48	Daniel	But not gonna work on D2 right now, but its a FW issue anyways
2288	20-Aug-21	9:49	Robert	yeah fuck D2 obv
2289	20-Aug-21	17:11	Robert	I gave all the CA users a \$20 store credit per month of D2 membership time hey had. And anyone who opened a ticket or PM'd on WH so far has had a response
2290	20-Aug-21	18:01	Daniel	Sounds good, gob job
2291	20-Aug-21	15:35	Patrick	Lavicheats seems to still sell destiny 2. Maybe that's a good thing for us as we might be the only ones coming forward.
2292	20-Aug-21	15:39	Patrick	Ring 1 too
2293	20-Aug-21	15:41	Patrick	Verterancheats also
2294	20-Aug-21	2:17	Patrick	i had a call with a lawyer for international law
2295	20-Aug-21	2:18	Patrick	it was only 15 minutes long but he gave me some important info
2296	20-Aug-21	2:19	Patrick	you guys need to figure out if American style punitive damages are applicable in your country
2297	20-Aug-21	2:19	Patrick	if not all they can do with the sentencing is to force us to destroy any copy of the code. and force us to never use their products again
2298	20-Aug-21	2:20	Patrick	and pay them the money we made from d2
2299	20-Aug-21	2:21	Patrick	if however high punitive damages are applicable in your countries (it's not in germany) it's in our interest to settle and have that as low as possible
2300	20-Aug-21	2:21	Daniel	Not here either
2301	20-Aug-21	2:22	Patrick	this something robert could ask his lawyer
2302	20-Aug-21	2:22	Patrick	because if it wasn't we could use this to negotiate a settlement
2303	20-Aug-21	2:22	Daniel	He probably knows
2304	24-Aug-21	14:47	Daniel	@extcaat they added BE now
2305	24-Aug-21	14:47	Daniel	Should we just take it down?
2306	24-Aug-21	14:47	Daniel	No point in updating it

2317	8-Sep-21	13:49	Patrick	true but not without asking for stuff in return i mean

2319	13-Sep-21	14:55	Robert	Here is the latest update
2320	13-Sep-21	14:55	Robert	Wallhax Settlement Letter.pdf
2321	13-Sep-21	14:55	Robert	106.1 KB
2322	13-Sep-21	14:57	Robert	Obviously I have to talk to John about it, some points may be negotiable. Also the requests for our communication make me unclear on how we should handle any discussion of this
2323	13-Sep-21	15:25	Patrick	did we even ever offer destiny cheats?
2324	13-Sep-21	15:26	Patrick	on CA
2325	13-Sep-21	15:26	Robert	but they may consider any cheat user who used the d2 cheat as having paid for it
2326	13-Sep-21	15:27	Patrick	can you do a voice call robert?
2327	13-Sep-21	15:27	Robert	one sec
2328	13-Sep-21	15:27	Patrick	ok
2329	13-Sep-21	15:27	Robert	ok
2330	13-Sep-21	15:46	Daniel	We didn't do a destiny cheat did we?
2331	13-Sep-21	15:46	Daniel	Like the first game
2332	13-Sep-21	15:46	Patrick	i didnt, i never even played destiny
2333	13-Sep-21	15:47	Patrick	wanna do a group call daniel?
2334	13-Sep-21	15:47	Patrick	me and robert are talking about the terms
2335	13-Sep-21	15:47	Patrick	maybe you want in?
2336	13-Sep-21	15:47	Daniel	Those terms are fucked

2354	14-Sep-21	11:05	Daniel	Keep us posted
2355	14-Sep-21	11:06	Daniel	Also AA removed destiny 2
2356	14-Sep-21	11:06	Daniel	Maybe they got sued as well who knows
2357	14-Sep-21	11:46	Patrick	they did it after we got sued
2358	14-Sep-21	14:36	Robert	off the phone, wanna do another discord call?
2359	14-Sep-21	14:37	Robert	@helloworld1337 @archpatriarch
2360	14-Sep-21	14:37	Robert	or we can set a time today or tomorrow
2361	14-Sep-21	14:37	Patrick	Yea
2362	14-Sep-21	14:37	Robert	yea to now or later?
2363	14-Sep-21	14:37	Patrick	Now
2364	14-Sep-21	14:38	Robert	okay, I'd rather talk to both of you than repeat stuff, so let's see if dan is around
2365	14-Sep-21	14:39	Patrick	he is to a bear testing
2366	14-Sep-21	14:40	Patrick	is there a chance you could give me a rough version?

2368	14-Sep-21	14:40	Patrick	and more detailed with daniel?
2369	14-Sep-21	14:40	Patrick	thanks
2370	14-Sep-21	14:40	Robert	call me
2371	14-Sep-21	14:41	Patrick	ok

No.	Date	Time	Poster	Message
2372	14-Sep-21	15:33	Robert	patrick is going to sleep so we can do a group call tomorrow maybe
2373	7-Oct-21	9:18	Patrick	this might be a weird thing to ask, but are sales significantly down?
2374	7-Oct-21	9:18	Daniel	PRobably
2375	7-Oct-21	9:18	Robert	yeah they are down from 2 months ago
2376	7-Oct-21	9:19	Patrick	but that could be because of d2?
2377	7-Oct-21	9:19	Robert	probably that and a combination of things
2378	7-Oct-21	9:19	Patrick	like?
2379	7-Oct-21	9:20	Patrick	we still come up in searches, so that's good
2380	7-Oct-21	9:20	Daniel	we dont do any of the popular games
2381	7-Oct-21	9:20	Daniel	except Apex
2382	7-Oct-21	9:21	Daniel	WF, and a few others
2383	7-Oct-21	9:21	Daniel	but people go to like BF now and then COD
2384	7-Oct-21	9:21	Daniel	Valorant
2385	7-Oct-21	9:21	Daniel	NW now as well
2386	7-Oct-21	9:21	Robert	we haven't had any big games that added a lot of users since splitgate, that game's interest seems to be dying off. And then with existing games we didn't hold the WoWS users we had and had bans there, our apex sales are down, things like that
2387	7-Oct-21	9:21	Patrick	i see
2388	7-Oct-21	9:21	Patrick	thanks for clarifying
2389	7-Oct-21	9:22	Robert	anyway personally I am okay with it until we have this legal shit resolved
2390	7-Oct-21	9:22	Patrick	yeah same and afterwards we should look at getting you guys detached from wh
2391	7-Oct-21	9:23	Patrick	as well as better legal setup
2392	7-Oct-21	9:24	Patrick	if lawyers see owner: kung pao ju-ding location: gofuckyourselfistan then they might be less inclined to pursue legal action
2393	7-Oct-21	9:24	Daniel	That wouldn't matter
2394	7-Oct-21	9:25	Patrick	i think it would
2395	7-Oct-21	9:25	Daniel	See it where though? You want a strawman company or?
2396	7-Oct-21	9:25	Patrick	yeah
2397	7-Oct-21	9:25	Patrick	if some rando in a third world country who is listed as ceo is getting sued is hell of difference between you guys getting sued
2398	7-Oct-21	9:26	Daniel	They can just do an individual lawsuit anyways
2399	7-Oct-21	9:26	Patrick	but then they would have to prove involvement
2400	7-Oct-21	9:26	Daniel	Yeah, its basically what they want to do with me
2401	7-Oct-21	9:27	Patrick	the issue with you is they know who you are

No.	Date	Time	Poster	Message
2402	7-Oct-21	9:27	Patrick	and they can go after robert to leverage cooperation
2403	7-Oct-21	9:27	Patrick	if you stike these two, what are they left with?
2404	7-Oct-21	9:28	Daniel	Well kinda, they don't have correct info why they want to do the discovery shit
2405	7-Oct-21	9:28	Patrick	yeah but even then they couldn't do all that much against you
2406	7-Oct-21	9:28	Patrick	because you can ask for a retrial
2407	7-Oct-21	9:29	Patrick	<a href="https://ring-1.io/forum/store/product/5-destiny-2/">https://ring-1.io/forum/store/product/5-destiny-2/</a>
2408	7-Oct-21	9:30	Daniel	But you are literally saying some weird shit now
2409	7-Oct-21	9:30	Patrick	that shit is still up
2410	7-Oct-21	9:30	Daniel	So if they prove involvement in US, you just get automatically fucked in Germany for example
2411	7-Oct-21	9:30	Daniel	Is what you are saying
2412	7-Oct-21	9:30	Patrick	if i get sentenced in germany they juedgement is applied in germany without a re-examination
2413	7-Oct-21	9:31	Patrick	they just check if no german laws were violated
2414	7-Oct-21	9:31	Patrick	and sometimes they adjust the amount of damage
2415	7-Oct-21	9:31	Patrick	its not like denmark
2416	7-Oct-21	9:31	Patrick	i told you this before
2417	7-Oct-21	9:31	Patrick	i sent you links
2418	7-Oct-21	9:32	Daniel	Yeah so thats what I mean
2419	7-Oct-21	9:32	Daniel	If they figure out ur Badger why does it matter to have a strawman
2420	7-Oct-21	9:32	Patrick	what i am also saying that we are off better with a legal cushion. roberts lawyer mentioned this to him and I think it is true
2421	7-Oct-21	9:32	Patrick	yeah thats what we have to change
2422	7-Oct-21	9:33	Daniel	But we also found a different link saying US cases werent accepted in germany
2423	7-Oct-21	9:33	Daniel	Us case judgements*
2424	7-Oct-21	9:34	Robert	im calling judge judy for u two

2429	7-Oct-21	9:34	Patrick	30.00 EUR 30.00 EUR/week

2432	7-Oct-21	9:35	Patrick	and by we i mean your moms
2433	7-Oct-21	9:35	Daniel	I dont believe US judgements will be accepted regardless
2434	7-Oct-21	9:36	Daniel	Anyways, what I'd do after is have lawyers go over every inch of the side and look into if reading game memory is actually against DRM law
2435	7-Oct-21	9:36	Daniel	in Canada that is
2436	7-Oct-21	9:37	Daniel	site*
2437	7-Oct-21	9:37	Patrick	robert has a lawyer who is specialised in copyright law
2438	7-Oct-21	9:37	Patrick	lets ask him what our best course of action should be
2439	7-Oct-21	9:38	Daniel	but is it even copyright?
2440	7-Oct-21	9:38	Patrick	robert mentioned that john could refer him to somebody who has experience in this area
2441	15-Nov-21	13:33	Robert	they just released the halo infinite multiplayer
2442	15-Nov-21	16:54	Daniel	How to access it?
2443	15-Nov-21	16:54	Robert	any steam account, it's free
2444	15-Nov-21	16:54	Daniel	Ah
2445	15-Nov-21	16:54	Robert	it's on shadow currently
2446	15-Nov-21	16:55	Robert	it's also on the xbox app but doesn't seem to be available there yet
2447	15-Nov-21	17:17	Daniel	No EAC
2448	15-Nov-21	17:17	Daniel	YET'
2449	15-Nov-21	17:17	Robert	Interesting, I noticed it wasn't mentioned on the steam page
2450	15-Nov-21	17:17	Robert	but yeah, they are calling it a 'beta' even though it goes through to release, so that's probably why
2451	15-Nov-21	17:18	Robert	I think we should still treat it as an EAC game
2452	15-Nov-21	17:18	Robert	in terms of offering it
2453	15-Nov-21	17:18	Daniel	Yeah
2454	15-Nov-21	17:18	Daniel	What game engine is this?
2455	15-Nov-21	17:19	Daniel	Kinda looks like COD
2456	15-Nov-21	17:19	Robert	I don't know if it's their own engine (343) or unreal, but I presume you would know if it was unreal
2457	15-Nov-21	17:19	Daniel	Its not UE
2458	15-Nov-21	17:19	Robert	it must be their own thing then, because I can't see microsoft licensing any other 3rd party engine for it
2459	15-Nov-21	17:24	Daniel	Looks a lot like D2 engine lol
2460	15-Nov-21	17:24	Daniel	But that could be the way they do their ECS

2462	3-Dec-21	5:40	Patrick	Earlier this year, game developer Bungie filed a copyright infringement lawsuit against AimJunkies.com, which offered a popular 'Destiny 2 Hacks' suite. Soon after, the parties began negotiating a potential settlement deal. To AimJunkies' surprise, however, Bungie sneakily went 'behind its back' by requesting the court to enter a default.
